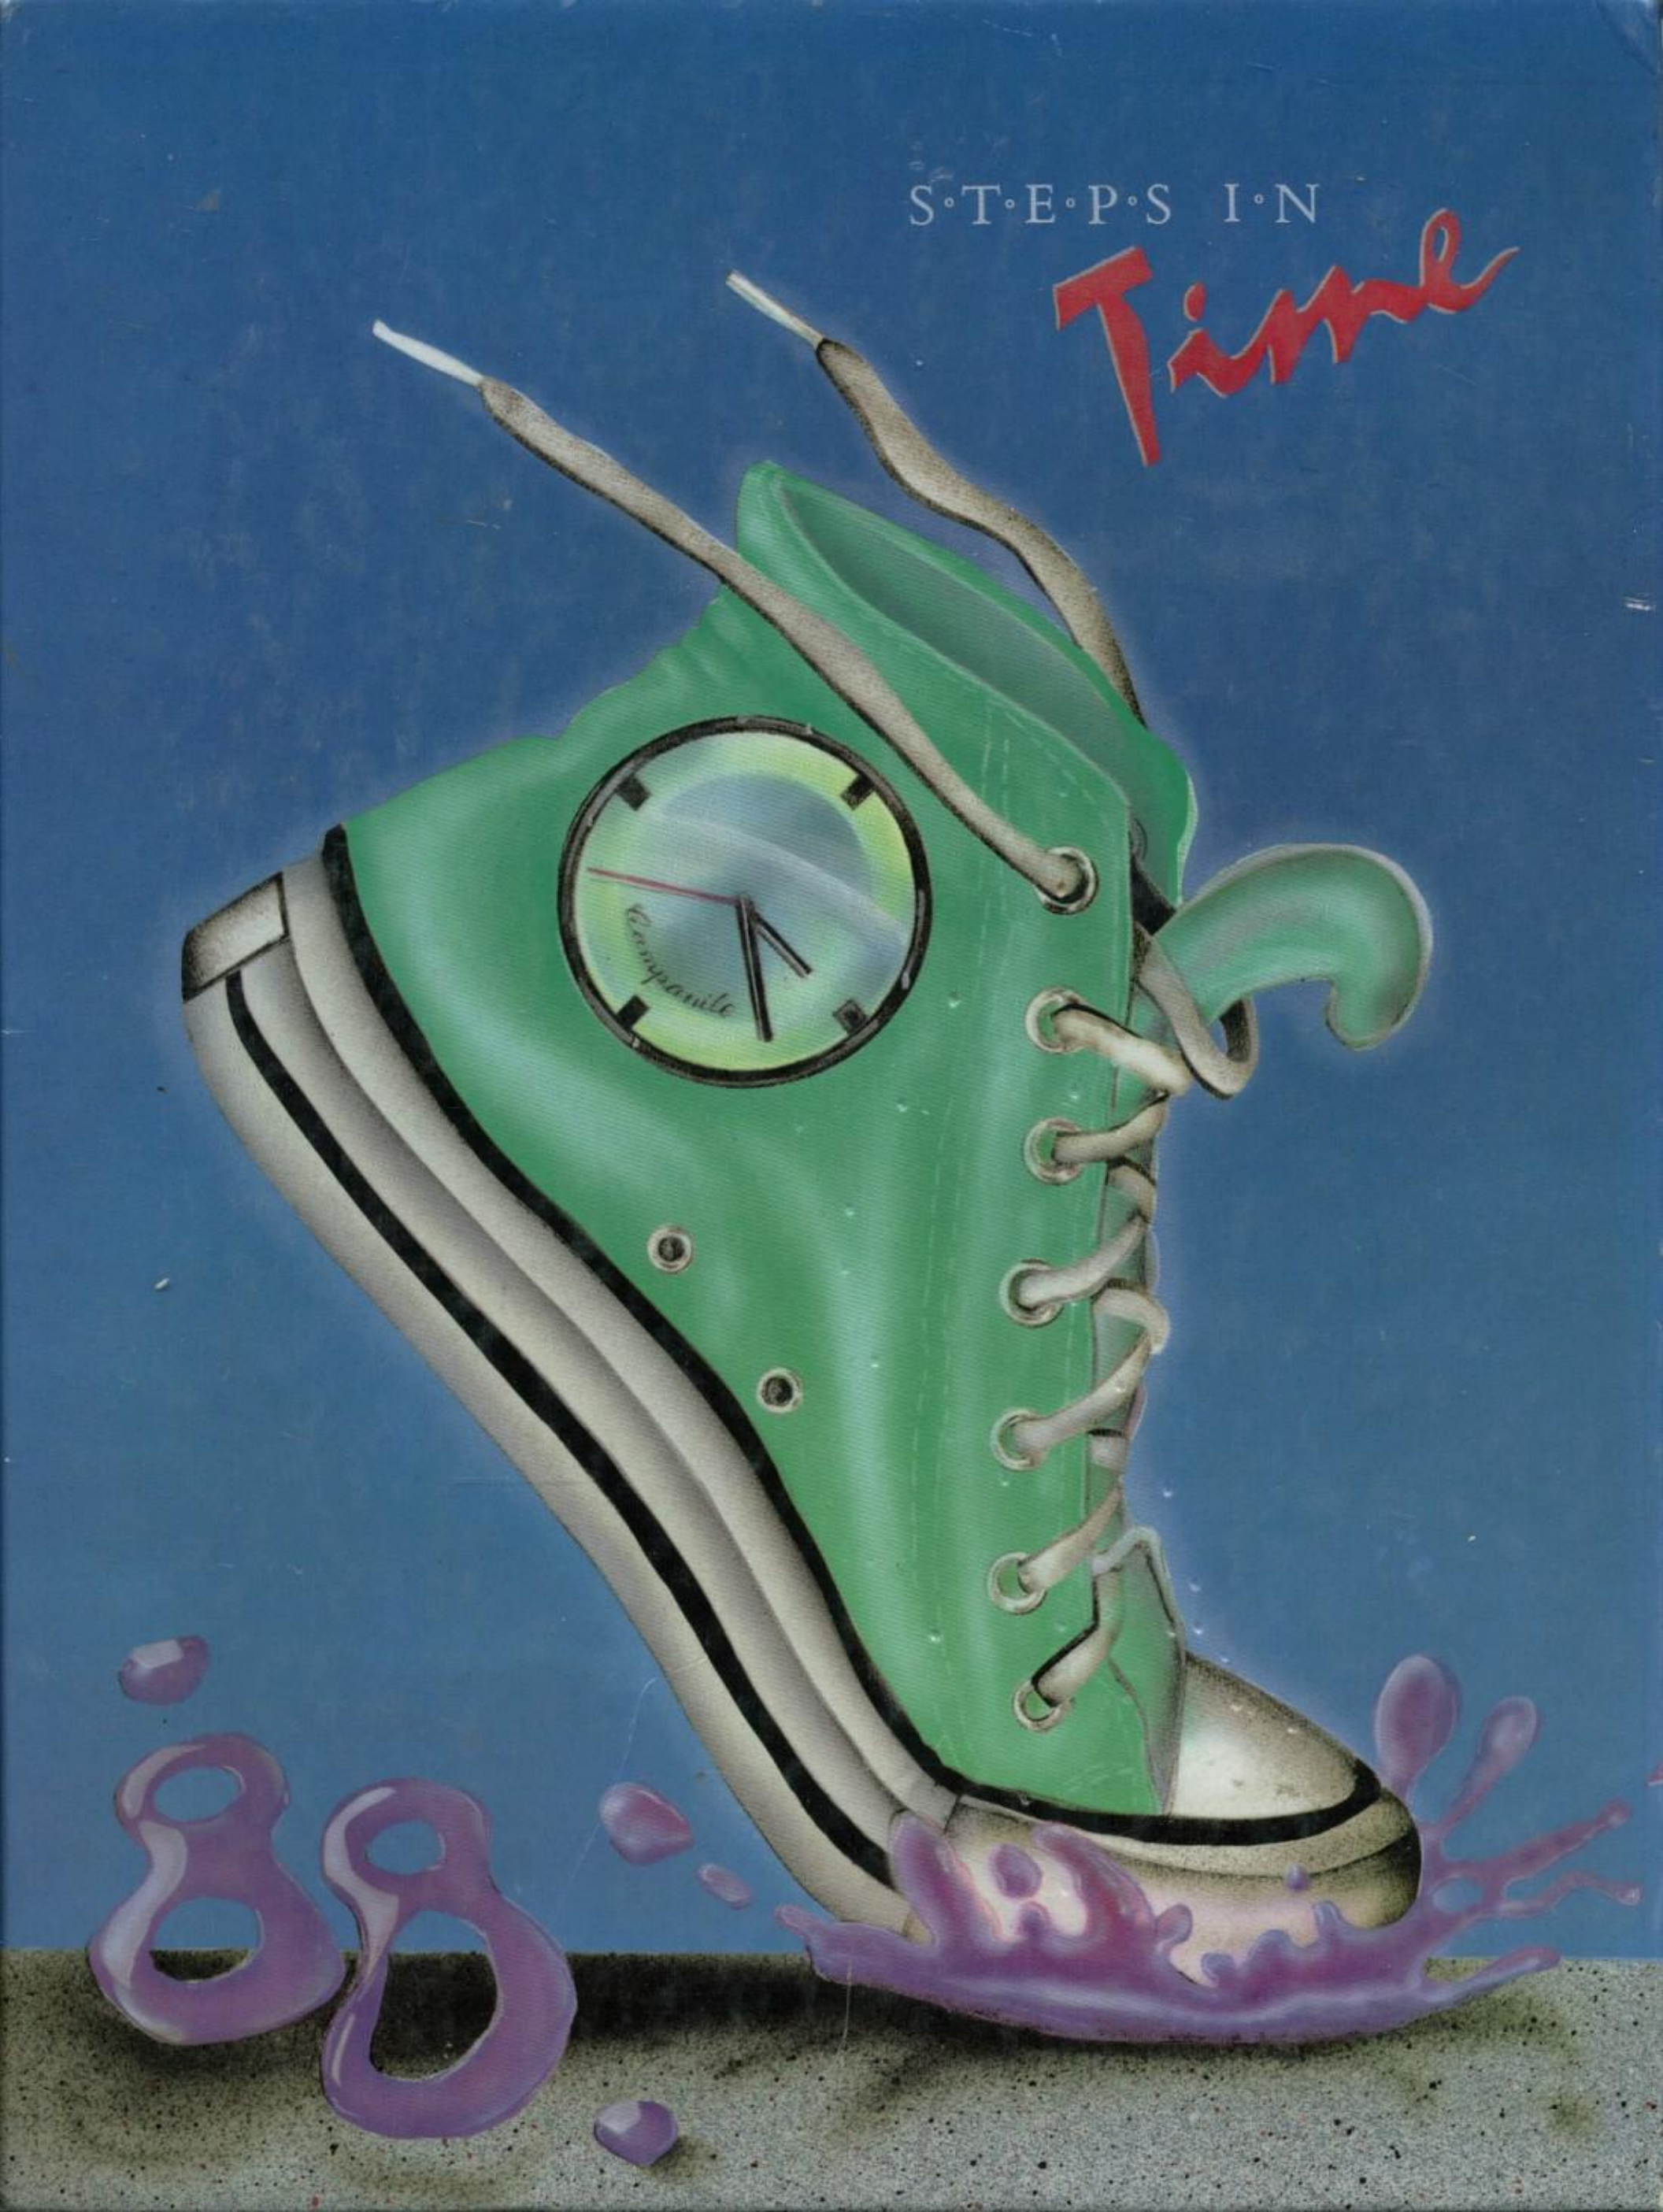
# S·T·E·P·S IN Time



6/9/88

TO: Douglas A.

Well life here at Belmont has been great, even through the rough times. Always keep the memories from the 10th grade until today. Hopefully we can pass through graduation, and go on to college someday & make something of ourselves. Don't ever become a stranger because I don't want to ever lose your friendship, it means alot to me. Remember me always because I will always be around and if you ever need someone to listen to your problems or accomplishments call me, O.K.!!! After we graduate we probably won't see each other too much so you know me will always see each other at work ⇒ McDonald's ☺. So remember take care, study hard & Good Luck.

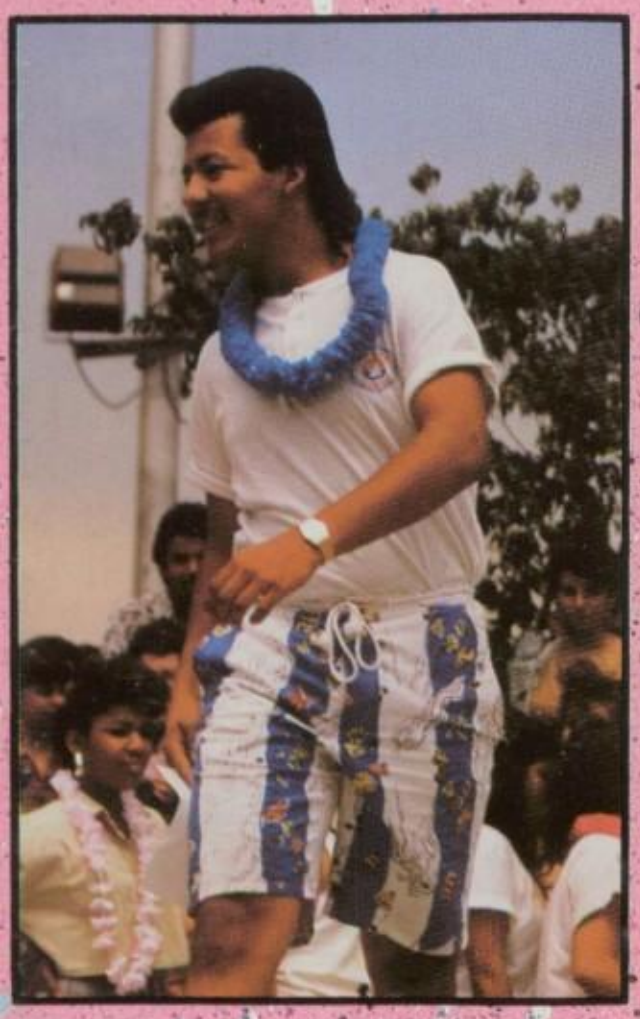
# STEPS in TIME

*Minute by minute, step by step.*



Five seconds to go . . . four . . . three . . . two . . . buzzz!!! It's a basket! We Won!!

"85 . . . 24 . . . 13 . . . or was it 3? The locker's stuck again! Uh-oh . . . one minute till the tardy bell . . . gotta get to class." Sweaty palms . . . shortness of breath . . . a full house . . . break a leg! Five . . . four . . . three . . . two . . . curtains up!

Whether it be making the last shot in a championship basketball game, getting to class on time, or performing before a full house, time plays an important role in our lives. It can be captured in our wisdom, lost in our carelessness, or held in a memory. Unlike so many of the things that we can control, time comes to us at its own pace, at its own tempo.

# Steps in Time

*For the freshman, it is the start of a new phase. It is a time to join a new "family" and to come face to face with insecurities.*
*For the sophomore, it is the continual process of fitting in with the rest, cutting their own space. It is the time to become involved through activities, a shot in the arm for school spirit.*
*For the junior, it is a challenging year of studies. It is a time of diligence and responsibilities.*
*Finally , for the senior, it is the year to shine. The excitment of the present . . . for they are the king of the hill. For them, it is also a time to reflect back and look forward . . .*

## HAWAIIAN WEEK

Every year it has been a tradition to have a Hawaiian Day at Belmont, but this year we had a Hawiian Week! This funfilled week included special events, club sales, and a night dance on the quad. The Hawaiian Week started off with a blast on Monday with a Hool-a-Hoop Contest. The winner was Rachel Bridge. On day two, the excitement continued with a Limbo Rock Contest. Dirk Stennet, Iris Miranda, and Janet Yen l1mboed their way to victory! On day three, cheers and hollers were heard for the Best Legs Contest. The winners for this event were first place winner Jovina Martinez and the runner-up Liz Laj. On day four, it was Senior Aloha Day. Seniors were dressed in Hawaiian outfits to show their spirit! Jo Jo and the Downtowners also paid a visit to the Belmont Student Body that day. The band was made up of Mr. Gomez, Joseph Montenegro (the pianist), Dennis Fernandez (the drummer and last year's Unique), Ray Montoya (guitarist), and Jose R. Coronado who sang the adorable version of La Bamba. They brought fans to their feet! The Hawaiian Week made its last appearance with a Hawaiian Costume Contest, but most dazzling was the night dance! The Hawaiian Dance ended the week successfully with packed crowds and music from the Enigmas. Book'em Dan-O!

Aloha!!

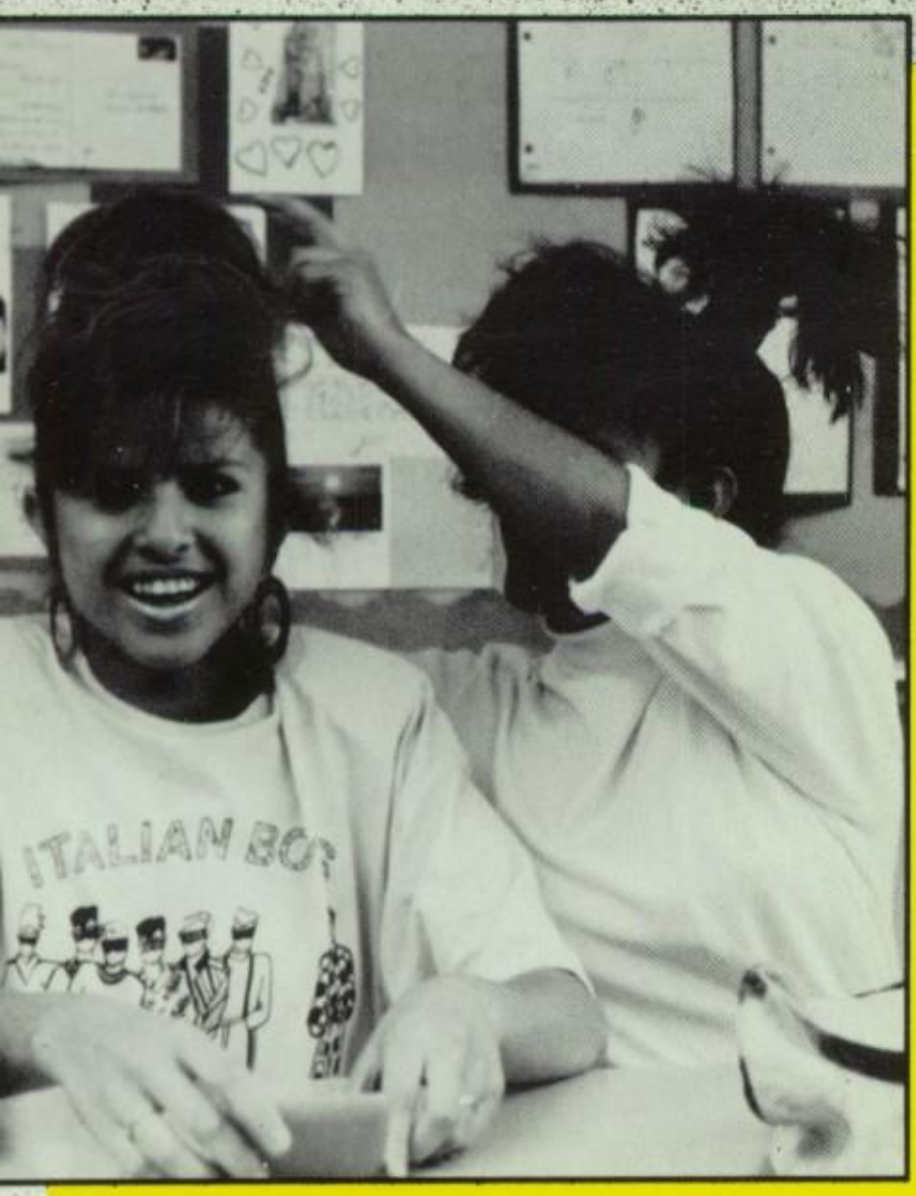
# Friendship

*When trials and troubles challenge you, And life seems so unfair.*
*Hand in hand we'll see them through, Together we can bear.*

*Over the years as we grow, It may be put to the test.*
*It's truly up to us to know, As friends we are the best.*



You have millions of things on your mind with most of them being problems . . . you look and your parents are busy, your sister is on the phone, your brother is going out . . . who else do you turn to but those very special friends?

Those very special friends.

They are there when no one else is. They are all ears when you need someone to listen and not to nag at what you did or didn't do. They understand you and the silly little things you do, and they accept you just the way you are. They respect your ideas and decisions, even though sometimes they don't understand them. Of course there are times when someone needs to apologize, but that's what friendship is all about—forgiving and forgetting. Friendships grow stronger when they are full of understanding and loving care for each other. They are so special that they are like brothers and sisters whom you can share your most intimate secrets with. Friends share good times, but they also share bad times. In those moments when you need a shoulder to cry on they are there. They fill you with hope . . . those very special friends.

# HARDCORE

## WEEKEND WARRIORS

Shred! Bigtime! An aggressive fundamental time for a daily practice with a skateboard. Skateboards have come a long way. In the past, a skateboard was just a plain rectangular piece of wood with a set of plastic wheels. The length of the board was longer, the wheels slower, and the overall weight of the skateboard much heavier. The skateboards of today are built for speed and maneuverability, thus aggressive skating!

Some might use a skateboard for just transportation or some might use it for shredding and freestyling. In this case, skateboards are used by those who are known to be aggressive skaters. They skate on their desired surfaces, which are; in a full pipe, on a half pipe, or even in an empty swimming pool. The only equipment besides the skateboard for the skater would be elbow and knee pads and a plastic helmet.

The only thing that seperates these aggressive skaters from your ordinary skateboarder or "poser" would be air space. It' RAD!!!

## . . . *just one more minute* . . .

Just one more minute that was all! Remember having to wait two whole hours before nutrition and lunch so that you could hit your favorite hangout? It seemed like a life time, but the last minute was the worst, it seemed like eternity. Once it was ovr it was worth all the wait. But just being there wasn't the best part, it was knowing that it was your special hangout and that people would know you because you were always there. Remember making a big commotion just so that others would know that you were there? After a while, they all knew you were there whether you were loud or just quiet. It seems like your favorite hangout reflected your personality! If you were a studious person, you would go off to a private and quiet place. If you were romantic and wanted to be alone with your boyfriend/girlfriend, you would go up to the fourth floor! But, if you were the outgoing type where would you go to? The Flats! Of course, there were other places like the patio, the field, the green top, the ROTC area, the first floor, and many more. But, no matter where you were it was all a part of Belmont.

hop Chop Chop-Hotel/Restaurant students Sherril Golliday and Maria Gasca prepare for the P. E. teachers luncheon . . . ra Molina looks on hoping Sherril is only cutting the tomato.

If you're ever down on the first floor before lunch, the halls may be filled with the aroma of sauted onions, or perhaps bread baking, or the scent of celery being cut. These great mouth-watering aromas are being brought to you courtesy of the Hotel/Restaurant class taught by Chef George Lindrum.

The H/R class has been active ever since 1979 thanks to the hard working efforts of Mr. Lindrum. His purpose for the class was to give students an opportunity to become famillar with the hotel and restaurant trade. The students in the class are expected to learn all facets of the restaurant business from cooking to waitering. The class as whole plan out the menu and rotate to all stations so they have an understanding of all parts of a working kitchen.

The H/R class also has a working restaurant on the first floor where they serve lunch for special gatherings. If one did not know better, he/she would feel as if they were somewhere other that in a public school . . . maybe a posh cafe on Melrose!

So the next time you're down on the first floor take a peek in the Hotel/Restaurant class—— something really is cooking in there!

# *BRAINS ON CAMPUS*

Does everyone have a brain? Of course! Every person is born with one in his head.

The human brain is the most complicated organ in our body. Doctors and scientists are baffled as to how it functions. It is so unique that there is nothing else like it on earth. It's able to retain and store more information than any computer made today.

Some people take their brains for granted, but not at Belmont. Belmont Students use their minds to accomplish their many tasks. Just last year, several Belmont students were accepted into some of the most prestigious colleges. It takes a lot of work, endurance, and brain power to accomplish this, but it's worth it.

By joining clubs such as Bel-Science, Med-Club, and others, students can learn more about themselves and what they want to become in the future. So don't waste your brain power; put it to good use.

Always remember that here at Belmont everyone is "Reaching Higher!"

# INTERNATIONAL

## BREAK-A-LEG!

Early this summer, Miss Bell got together a group of students and started teaching them dances which she choreographed. These determined dancers were the International Dance Troupe. They learned dances which represented different areas of the world, varying from a Pakistan dance to modern dance number taken from Janet Jackson's routine. With the after school dedication of these dancers, the International Dance Show was performed on October 21. The show included a special performance of an Armenian dance performed Miss Bell. The Janet Jackson routine and the Pantago dance were splendid presentations along with the others. There was also a solo dance by Socorro Montes. She used hand gestures and sign language in her dance to tell a Hawaiian story. The most pleasant dance was the one where Miss Bell lead a group of football players to an aerobic exercise. The performance was a huge success. There was a packed house and a lot of support!

After the last performance, the dancers hugged each other with relief and joy. Later, the cast surprised Miss Bell with the presentation of a trophy and a bouquet of flowers for her patience in teaching the dances to them. Then the party began . . .

# A GHOST OF A TIME

## HALLOWEEN

EEEEEEEEEEEEK! Witches! Ghosts! And goblins! You know it's that time of year again when you see strange creatures lurking in corners. It is the time when all the creatures of the night come from far and wide to Belmont to stir up the Halloween festivities. This year, Witch Day was celebrated with a blast! To start everything, there was the all famous Mummy Wrapping Contest in which each contestant was to wrap his or her partner in toilet paper. Very fun. Very sanitary. Following such a prestigious event, there was the annual costume contest. Here, both teachers and students dressed-up to resemble his or her most favorite character. Yes, it was a day of fun, laughter, and excitement.

# *A TRADITION CONTINUES*

For years, the Belmont cadets have brought honor our school and to the Sentinel ROTC Battalion. Each year, a new honor is added to our tradition. In the past, the unit was best known for its outstanding performances in the All City Drill Competitions. They have won All City Company, Color Guard, Male and Female Drill Teams, Best Squad, and Individual Manual of Arms. This year, the All City Color Guard was won by four young ladies; it was a tough competition for they were the only team of females competing. Yet with their dedication and practice, they accomplished their goal. Belmont is the only school to have won the All City Best Company Competition eleven times. Now, our academic excellence has begun to shine; this year, cadet Darlene Salvosa won All City Information Officer and five members of the Sentinel Staff were among the top twenty-eight cadets in the city; no other school placed more than four students this high. Once again the Sentinel Battalion was designated Honor Unit With Distinction.

Without the dedication displayed by the cadets and the long hours spent practicing the Belmont J.R.O.T.C. would have never made it this far. We stuck together and pulled it off. We have left our mark on the L.A.U.S.D. J.R.O.T.C. historical files.

# CALIFORNIA ACADEMIC DECATHLON

In just one Saturday, there was enough pressure to last a lifetime. Yet through diligence, perseverance, and encouragement this year's Academic Decathlon team finished nineteenth among fifty-three schools.

The team was composed of: in the honors division (GPA of 3.75 to 4.00) Shiela Gonzalez and Shankar Patel, in the scholastic division (GPA of 3.00 to 3.74) Ronald Inton and Becky Sato, and in the varsity division (GPA of 2.00 to 2.99) Alicia Lopez and Baltazar Mejia. The alternates were Jaqueline Nguyen, Man Hue Lam, and Beverly Santiago.

The team worked diligently in preparing for the ten events which were: Math, Science, Social Studies, Economics, Fine Arts, Interview, Speech, English Literature, Essay, and the Super Quiz.

While each member gained plenty of knowledge on many subjects including the history of flight (which was the theme of the Super Quiz), there is one precious gift which each team member received: the ability to work together as a "team". Pure joy may not have come from the final results of the competition but it definitely came from the wonderful friendships made preparing for this event, and the teamwork it took to get there!

# A Joint-Work Project

*Back-To-School Night*

Have you ever wondered what happens at Back-to-School night? Well, it's not a time when you get grounded because your parents saw your grades. It is a program which joins the teachers, the parents, and the students together. This program tries to influence the parents to encourage their children to work and to learn. It is only through understanding the students that the teachers could motivate their students to learn.

During the Back-to-School night, different Belmont organizations participated in this project. Members of the organizations volunteered to be translators and they also had food sales.

The Back-to-School night has encouraged a joint-work project between parents and teachers. It is through the support of Belmont that students feel better motivated to learn.

# Homecoming

## HOMECOMING MEMORIES

Homecoming was a very special event at B.H.S. This year, the homecoming took place on November 6, 1987, between the B's and the varsity's football game. It is a time when alumni return to Belmont to participate in the spirit of the occasion.

Homecoming was started off by a parade of clubs and organizations. The parade was led by the R.O.T.C., and followed by the Drill Team, Pep Squad, and Senior Class. Clubs which participated in the parade were, le Cercle Francaise, Martin Luther King Club and Y.C.S.

When the paraders ended their march, the ceremony of announcing the King and Queen was performed. The honor of being the 1987 Homecoming Queen was Soraya Abdel-Hadi, and the King was Jose Guzman.

After the ceremony, the varsity football game was underway.

The Homecoming Dance was the last event of the night. At least 1000 people showed up for this festive activity.

# MUSIC
## IN MY SOUL

### *A GLIMPSE AT ONE OF BELMONTS MUSICALLY TALENTED STUDENTS*

You may have seen him walking down the halls of Belmont humming a tune or heard him playing the piano in an empty classroom after school. No matter where or when you have seen him play, you can tell that he has talent.

Joseph Raymond Montenegro, a young and gifted musician, started playing the piano at the age of seven. His lessons began with early and basic classical pieces and reading music. Eventually, he was pulled in by the sounds of all types of music, from Pop to Jazz. Some of his influences include his brother, Elvis Presly, The Beatles, Rod Stewart, and yes, Beethoven.

Even though is is involved with his music he still likes to see a good movie now and then, his favorites being those from the 30's and 40's. He also loves going to parties and enjoys sports such as basketball and baseball.

One of Joseph's plans for the future is to attend Georgetown University. However, he is uncertain of the courses he will take if he is accepted. He also plans to visit Paris and is presently considering a modest profession which will enable him to pursue his music career as well.

Joseph Montenegro is a fine example of the ambitious attitude of the Sentinels and he will help prove that we can succeed.

**SLICK**-*Not only in high school can you be yourself, but it adds when you can smile about it, says Aluna Menor*

It seems just yesterday that you were a midget in diapers trying desperately to take that first step. Saying your first word and learning to eat by yourself came next. Soon you graduated from mom's potty-training class, learned to tie your own shoelaces and were ready to take on the challenges of fingerpainting and blockbuilding, kindergarden's most prestigious activities.

You easily made it through the rest of your grammar school years and went on to the obnoxious years of junior high—fighting with your classmates and playing the "cooties" game. Soon, after two years of getting your bra snapped and running around the school chasing the boys, you were ready to move on to a bigger and better place—high school.

High school life seemed like a different world. "Recess" had been replaced by something they call "Nutrition". The students, though they still had some growing up to do, become less obnoxious. Classes seemed longer not to mention more boring. Despite these minor setbacks you knew that high school would be a great experience so you decided to stick around until graduation.

# LIGHTS, CAMERA, ACTION!

It all started with a personalized invitation to your assigned appointment. You shook with terror realizing that you had nothing to wear! Frantically you dashed through the mall, the night before your appointment, trying to find that perfect outfit.

You fiddled with your hair until you finally got it to look exactly right. You were ready for the photographers! Finally, the hour had come for you to go down to Arabesque studio for your appointment.

When you first walked into the building, an Arabesque employee explained the photo session and the picture packets available. All ready to go, you were asked to take a seat and your card was put in the slot. So you sat down and waited anxiously along with the others.

After what seemed to be an eternity, your name was called. You went into Studio A to take the yearbook picture (and cap and gown pictures if you desired). As the photographer told you jokes trying to get you to relax, you sat on the stool and laughed nervously. When that was all over you were led into the bathroom to make a change of clothes. You came out fresh and prepped, ready to take on the lights and the cameras of Studio B.

You sat and waited patiently, . . . again. Finally the photographer called your name and you went into the studio. All the fun was just beginning.

"Okay, sit right here please! Great!" said the photographer. So you sat.

"Now sit up very straight and tall. Good! Tilt your head to the side. Remember, sit up straight! Perfect! Now smile!"

"He wants me to smile too?", you thought to yourself.

After smiling, tilting, and sitting for a long, long time, you were finally finished. You didn't have to worry anymore about your senior pictures for they were completed. (All your worried about was seeing the proofs in three weeks-which of course turned out perfect!) And so another senior activity experienced . . . another step in time.

# WHAT'LL IT COST . . .

The last year of high school is the most memorable time for a student. It is almost every student's dream to reach their senior year. But note: there is a price to pay.

Most seniors feel that their last year of high school should never be forgotten. Therefore they try to obtain "souvenirs" such as pictures, senior rings and, of course, yearbooks. There are many more memorabilia but in order to have remembrances, money is needed.

With inflation most seniors have difficulty in obtaining the memorabilia. Prices of senior portraits, rings, and other "souvenirs" have gone up through the years. Take, for example, yearbooks. In 1984 the price of a yearbook was $20. But presently the price has risen to $35. Also, former Belmont student, Miss Jane Nakano says, "When I bought my senior ring in 1976 it costed $90." a senior ring will cost from $200 to over $300.

| | Guy | Girl |
|---|---|---|
| Senior pictures | $150 | $150 |
| Class ring | $300 | $200 |
| Yearbook | $35 | $35 |
| Prom | $70 | ------ |
| Prom rags | $65 | $110 |
| Prom pictures | $30 | ----- |
| Grad night | $25 | $25 |

# THE SENIOR SYNDROME

**Finger Caught?**-*Or is it a case of the lights too bright in the classroom, or is it just SENIORITIS .....*

Feeling restless? Lazy? Run down? Sick of homework? Does your notebook look untouched? If you answered YES to all these questions you may be a victim of that fame disease called SENIORITIS.

SENIORITIS strikes 99.9% of seniors every year. The effects are drastic. Seniors feel no desire to do anything as far as schoolwork is concerned. Seniors with acute cases of this disease may be found sleeping in class and not doing their homework. But in severe cases, Seniors may go as far as getting into the habit of ditching and partying 7 days a week.

Presently, no cure is found. So if you are a victim of this dreaded disease, we recommend that you consult your local SENIORologist. On the otherhand, if you are unable to go to one we recommend that you think about the future —-

NO GRADUATION!!!

# A STROLL DOWN MEMORY LANE

Waiting for our senior year seemed endless. But, now that it has finally come, our senior year is passing us by all to quickly. The prom was just one "special night", it was short but sweet. Homecoming was "a hop and a skip". Then we dragged through class after class, but indeed, the clock quickly ticked to the dismissal time. Sadly but truly, the hours of sharing and just having fun with the "gang" has come and gone. College applications, though frustrating and agitating, have past grievingly fast as well. Having time to share with that special "someone" drifted quickly. The hopes of just passing a class with a case of "senioritis" and gaining something from our high school experience has dwelled within us. These memories, beautiful and maybe depressing, marked our senior year and are treasures we will keep with us as we step toward our future.

# *COLLEGE TOUR*

One of the hardest decisions many seniors have to make is what colleges they are going to apply to. Its really difficult to choose a college that you have never seen or heard about. Though many seniors are left to rely on what others say about the colleges, some college-bound seniors were able to see some campuses up close.

Selected seniors traveled up north for a four day tour of colleges including Stanford, Berkley, and UC Santa Cruz. We learned about college programs, financial aid, and got to tour the campuses we visited. Belmont Alumni at each college spoke to us on their college experiences and encouraged us to continue our education. The trip was not only informative but also fun. We spent a day at Fisherman's Wharf in San Francisco and at Monterey, sightseeing and having fun.

This year's Northern Cal. Trip is just another memory for the 41 seniors who went. Though some of us will not be applying to any of the colleges we toured, the trip was a big help. Not only did it aid us in narrowing down our college choices, but it also made way for new and stronger friendships.

# China Girl

On September 24, 1987, Warner Bros. Movie Studio invited the senior class to preview the Romeo and Juliet revised movie, *China Girl*. Although the theme of the movie was the same as Shakespeare's masterpiece, *China Girl* had more crime and violence. The movie dealt very little with the passion of the two lovers, Tony and Tyan. At times, the violence seemed too gruesome. Overall, the movie was satisfactory, a one time only kind of film. Between a 1-10 rating of the movie, *China Girl* deserves a 6.

# FOUL-UPS BLEEPS & Blunders

Just when you thought it could only happen to you . . . Not all seniors can go through a day without running into some problems. There comes a time when somewhere, unexpectedly you have your unforgettable experience. It happens to all of us. After hiding their secrets for four years some of Belmont's brave seniors reveal there "shining" moments. The following are actual accounts of our seniors foul-ups, bleeps, and blunders . . .

"My most embarrassing moment at Belmont was when I fell down the stairs with everyone looking at me . . . I got up and fell again!"—Maria Lucero

Sylvia Ordonez explains—"The most embarrassing moment of my life happened a week after the earthquake. I was in class when one of my classmates started shaking my desk. I found myself under the desk screaming like crazy. Everyone started laughing at me and I turned red!"

"When I was running on the P.E. field something happened to my shorts. I kept running then suddenly my shorts fell down to my knees!"—exclaims Samuath Nheik

# C H A N  C L A N

I am the 8th and final member of the Chan Clan to attend Belmont. The 1st of the Chans to graduate was Uncle Henry Chan of the class of 1980. He is the brain of our circle. From then on, all the Chans were expected to follow in his footsteps. A few teachers that had him expected all of the Chans to do as well as he. All of my siblings did well in school. They were all in C.S.F., and all were Gold Seal Bearers until I came along.

My work has always been average compared to the rest of my brothers and sisters. Instead of concentrating my thoughts on books and homework, I leaned more of my efforts to school activities. Though I do not fail in the I.Q. category, I'm satisfied with where I stand in Belmont.

Sometimes when I walk down one of the hallways, I'd see Mr. Velie. He'd always ask how my sisters, Lily and Tina, are doing. I'm glad that the teachers still remember the Chans through two generations. Will there be a third? I think Belmont's teachers better prepare themselves for another batch of Chans to come.

# Summer Plans for '88

It is finally over! Four years of high school have come to an end! Graduation has passed us by! We are now free from homework, classwork, tardy bells, and structured school days. So now that we actually have a summer vacation, how do we plan to enjoy it? Well, here is a glimpse of what some of our graduating seniors are planning to do.

Carlos Alvarenga: "I am going to go to the beach and party!"

Cedric De Guzman: "I plan to go to Virginia to complete my training as a power generator repairer in the U.S. Army Reserves."

Kay Kong: "I plan to HAVE FUN!!!"

Jacqueline Nguyen: "Work! What else is there to do? No, seriously, I need money for a car. And, I'll be making up for all the fun and games I missed while hovering over the books."

Shankari Patel: "I plan to take a graduation trip to Hawaii and after that I am going to take an animal zoo keeping class."

# GUYS AND GIRLS
## VIEW ON THE PROM

It's two weeks before the prom and you still don't have a date. Every minute seems to tick away with incredible speed. Frantically you search for your little black book but to your dismay, the only phone number listed is your mother's work. Does this sound like something you've experienced? If you answered yes, you'll be happy to know that a survey was taken with some promising results.

The bad news for girls is that now the cost of the prom bid is no longer confined to just the guys. Cedric De Guzman summed it up by saying "Both parties should share expenses."

The good news is that most guys and girls feel that it is perfectly fine for the girl, as well as the guy, to ask the big question . . . "wanna go to the prom?" Thus, all the burden of rejection and finding the "perfect" date is no longer only the guys responsibility. Shankari Patel captured the feeling of many when she said, "It would be great if the guy were the one to ask but I think it's fine if the girl asks. If I were to wait for the guy I probably wouldn't be going."

# THUMBS UP TO THE MONTES!

*Too hot to handle-the way Socorro and Baltazar are doing, the sky is the limit!*

Within Belmont there dwells a nice "family" atmosphere, even though most of us are not related to one another. But, there are many families who have attended Belmont from generation to generation, as well as brothers and sisters who are attending Belmont at the same time.

One such example is Baltazar and Socorro Montes. They are both seniors this year. Socorro, a versatile dancer, is the captain of Belmont's Dance Team this year and she has performed in front of the student body for four years in International Dance and Thespian produced musicals. Baltazar, a four year letterman, plays Wide Receiver, Defensive Back, and Punter for the Varsity Football Team. In addition to being a great athlete, Baltazar is also a great artist; he has won recognition for his art work. This brother and sister team plan to attend UCLA in the fall.

# Ten Great Reasons For Not Graduating

According to our research office in downtown Los Angeles, the following ten reasons were given as the ten best reasons for not graduating . . .

1. I thought P.E. didn't count.
2. I forgot my locker combination.
3. My English teacher had it out for me.
4. My Math teacher had it out for me.
5. All my teachers had it out for me.
6. I love the cafeteria food.
7. I thought the periodic table was the lab table in the back of the room.
8. I thought Driver's Ed was a major.
9. I look good in green and black.
10. I thought I was off track.

## *"If we can't find the road to success, we'll make our own . . ."*

**Senior Cabinet** '88-Front: Jackie Nguyen, Conny Chan, Susie Lee, Mr. Gomez, Perla Chavez, Ana Perez, Ana Acevedo. **2nd:** June Alota, Sheila Gonzalez, Magdaly Ariola, Adriana Aguirre. **3rd:** Evelyn Santos, Maria Santos, Ana Alvarez, Gloria Alvarez, Lily Perez. **4th:** Sergio Lopez, Cristina Rivera, Julio Portillo, Baltazar Montes, Terrance Cheung, Guilbert Baradas.

This class motto created the importance and support of the senior cabinet, Class of '88. The able leadership displayed by this efficient group made possible once again the excellence Belmont traditionally displays in selecting its class officers.

This year, the Senior Cabinet worked diligently to achieve success in the various senior activities, such as Senior Sucker Day, Senior Breakfeast, Grad Nite, and the memorable Prom. Other activities that brought the Senior Cabinet together as a team were the "Mummy Wrapping Contest," "The Buddy Game," and the Chinese Chopstick Relay."

Working together with the cabinet were the always helpful members of Belmont's Senior Class, staff and faculty. We'd like to thank our principal, Mrs. Bin, for her support throughout our graduating year and Mrs. Gishri for always being there lending a helpful hand. To Mr. Gomez, our Alihians' sponsor, we give our undying gratitude for his commitment to excellence and unflagging encouragement.

## LOOKS LIKE WE'VE MADE IT!

Remember those days when you thought you'd never see the end of high school? Remember those times that you thought graduation was light years away? Well, times have certainly changed. After four years of waiting its finally here. You realize how fast everything went and you wonder how everything came about. It seems just yesterday that you were a struggling freshman. Now it looks like you've finally made it!

# Leaders Of The Pack

Hard work and dedication. Two very simple words to describe a very complex group. That group is the Student Council of Belmont High which is led by Mrs. Roche-Blair. Student Council is led by the three presidents (one per track) Tom Kent, Emily Gabriel, and Carolina Avalos.

The purpose of Student Council is to promote the Belmont spirit in all of us. They are responsible for the organization and planning of dances, noon activities, and special events. (i.e. Hawaiian Week, Homecoming, Christmas activities)

The fond memories we all share when we look back upon the past year has much to do with the blood, sweat, and tears poured by the Student Council . . . hard workers with dedication.

# Together We Are A Family

With the Sweethearts' new uniforms and smiles, this year's Swinging Sweethearts were the best Belmont has ever had. There were a total of thirty-one proud, spirited, and dedicated members. Sure, there was a lot of hard work involved and many tears shed, but the laughter and memories will always linger in our minds. Now we can look back and say, "It was well worth it!"

We danced to the rhythm of our band playing: "Give Me Some Lovin'", "Sunrise Lady", "Fireworks Madrid", "Ice Castles", and of course our "Fight Song", to name a few.

Our Homecoming theme this year was "Belmont Rocks Around The Clock". We came out on the field during half-time wearing poodle skirts, bobby socks and oxfords. It was a night to remember.

The football half-times, Homecoming, and Competitions—we could not have done any of these without the musical director Mr. Tony Feliz. We would like to apologize to him for all of the headaches we have caused you during practice! We would also like to thank our new drill team sponsor, Ms. Massey, who was always there to give us moral support, encouragement, and energy.

Yes, together we grew strong and kept the faith that made being a Sweetheart something to be proud of. And only as a unit were we able to overcome many obstacles, because together "We Are A Family".

# The Marching Sentinels

What is a football game without a halftime show? Boring, right? But our Marching Sentinels add a spark to each football game. With the leadership of our Band Director, Mr. Tony Feliz, and Drum Major, Agustin Arellano, the halftime shows are unsurpassed.

This year's Marching Band is the smallest ever, but a lot of hard work goes into each performance. But of course being in a small band has its advantages and disadvantages. With the talents of trumpet soloist, Nelson Domingo, and veteran saxaphone player, Felicia Corralez, we all seem to survive it all.

This year's Tall Flag Team is reaching new heights and keeping their reputation of being the best. Led by captain Margoth Quintanilla, and co-captain, Sonia Rivas and Shirley Cervantes, those pain-causing routines and long hours of practice seem to be a breeze.

The newly aquired Dance Team has brought a new meaning to the word excitement. Mind-boggling steps, pulled muscles, and getting up at 5:00 a.m. to arrive for practice never seems to slow them down. Led by captain Socorro Montes and co-captain Graciels Gaitan, the Dance Team will continue to strive.

Long hours of practice, disappointments, and pride seem to fill the hearts of the Marching Sentinels. Many thanks to Mr. Tony Feliz for putting up with our complaints during practice. A special thanks goes out to David Marquez who put a little life into our show. For years to come, the green and black pride will continue to shine.

# The Hardest Working Man In Show Biz

Ask anyone who the hardest working man in show biz is and they'll tell you without hesitation . . . "Mr. Anthony Feliz!"

Mr. Anthony Feliz is Belmont's music teacher who will conduct on all tracks starting this year and here's why he's so fantastic.

He has brought beautiful music to each and every performance. He conducts the orchestra in our annual musicals which are always enjoyed by many. Overall, he is best known for conducting the Band and Drill Team. This year, he did not only bring great half time entertainment, but he also led the Band and Drill Team to second place in the pre-lims.

Our Drill Team won first place at the preliminaries along with first place for the Flags and Dance Team in a previous competition. After many hardships and setbacks, Mr. Feliz took his band and Drill Team to the City Finals on Jan. 19, 1988 at the L.A. Sports Arena. The competition was tough, but Belmont came in 2nd and hopes to take it all next year.

Mr. Feliz has a creative imagination which is sure to lead to success in the years to come, coupled with determination, spirit and dedication, how can we lose!

# YCS

Youth Community Service, alias YCS, is one service club that is always on the go. The members of this club never tire out. They are dedicated to helping the poor, the elderly and the underprivileged. They will not hesitate to better the community and the lives of the people within them.

"I think the best part of YCS is how we help people. I have enjoyed and experienced many great moments. "Beep Ball" with the blind was one of the most interesting things I have seen in my life. It is really fascinating to know that I am helping people. I feel very proud to be in YCS"-Jenny Lopez "YCS has taught me about myself and others" -Erica Castillo

# Give Me A "B" . . .

Cheers, jeers and hollers are the mainstay of Belmont's Pep Club. The Pep Club spices up each football game with their spirit and enthusiasm. If it weren't for them the stands would be rather quiet. They are the spark to fire up the crowds.

Besides helping the cheerleaders in the stands, the Pep Club is also involved in performing with the cheerleaders during pep rallies and noon activities.

This year's Pep Club started with many anxious members that showed at all the football games. The enthusiasm was so high among the girls that recruiting for next year seems to have taken care of itself. The girls along with their advisors Mrs. Polk and Ms. Torres welcome each and any new member—-their philosophy is not only the more the merrier . . . but louder!

# A Tribute

On January 15, 1988, Ms. Polk and Ms. Massey organized a tribute to Dr. Martin Luther King Jr. and the results were magnificent.

The celebration was a combination of speech, music, and dance. Ms. Massey and her dancers performed three numbers ranging from Brazilian to modern dance styles. Mr. Gomez delivered an excerpt in Spanish from the famous words of Dr. Martin Luther King Jr.. Ray Montoya honored the Dr. King with a simple yet touching version of The Beatles "Yesterday".

Dorsey High provided a special addition to the tribute with a variety of presentations which included an interpretation of "I Just Want to Sit Down" by Nilia Hay, a speech by Akbar Al-Debaran and Claude E. Williams, a rapping segment by Nilia Hay and Carlos White, and a dance by The Dorsey High dancers graced the stage with two African-Modern dance numbers.

The assembly was a success and everyone was proud to pay tribute to such a wonderful man as Dr. Martin Luther King Jr.. Thanks to Ms. Massey, Ms. Polk, and the Martin Luther King Club, Dr. King's dream became ours.

# Le Cercle De Francais

The French Club is an organization dedicated to raising the school spirit with a French accent! During the spring time, the French Club presented Belmont with the celebration of Mardi Gras. There were exciting activities and appetizing food. It was one special week! This organization also gave an opportunity to students to work within their community. During Christmas, the sponsor, Mme. Lang along with the members of this organization visited the Shriner's Hospital and samg Christmas Carols to children. They, of couse, sang a song or two in French. The French Club had a nice atmosphere all to itself and the members all shared the same appreciation of the French culture.

# The Nicaraguan Club

The Nicaraguan Cultural Club was founded in June 1987 by the freshmen B-track student Orlando T. Mongalo, and other students and teachers who also helped organize this club.

This Cultural club was organized with the intensions of letting students know more about Nicaraguan Culture and be better prepared to serve the school.

In this organization you just not only learn about Nicaraguan Culture or help the school but leadership is also taught. There is something very important to know about every country, the culture, and the people, but we have decided to teach the Nicaraguan Culture. This way we are letting everybody know that Nicaragua is not just a Communist country or a war country like most people know, but it is a country with lots of different cultures. Thirty per cent of the members are from Nicaraguan, others came from Latin America, Europe, and Asia: Cambodia and China.

The Nicaraguan Club Members are very active serving the school in a variety of ways as a united family. We will keep on doing the best job we can to maintain the culture of Nicaraguan alive and th render services to the school, for that is a promise, Senitnels, you can all count on the Nicaraguan Cultural Club.

# Forensics

This year the members of the Forensics came home winning excellent and superior awards. But, winning isn't all for these competitive students. The members of the Speech Club who have participated in the tournaments found the whole experience most rewarding! At the tournament, they competed in different categories against the schools in our Forensic league. The categories includes: original oratory, spontaneous argument, storytelling, expository, dual presentation, and many more. Through the competition, the members expressed the winning spirit of Belmont and the spirit to strive for their best.

# Chinese Cultural Club

*To eat or to speak?- club member **Phuong Quack** gets ready to speak at the lunch meeting.*

The Chinese Club was organized to promote the culture of the Chinese. It seems that only the Chinese are interested in this club. Ms. Sheih wants other people with different nationalities to join. Students with other nationalitites do not join because of the name of the club. Ms. Sheih wants the Chinese students to understand their background. Understanding their background will help provide a bridge to close the gap between their culture and other cultures. Maybe they will feel better about themselves and not be timid. They may want to go on further in a club in college, since they have some experience in one.

They participated in school activities such as Campus Beautification program. They put up posters and fliers to remind all schoolmates to keep the school clean. Some of the club members helped in motivating the lunch line. They also sponsor dances when they are able to do so. This club is really showing their spirit. They care for the school and want it to look respectable.

Last year the Chinese Club held a banquet where all the members received souveneirs. They had this get together during lunch on the last day of school for the C-trackers. They chose this time during the day because most of the girls cannot go out at night. They went to a Barbeque restaurant which was a buffet. In other words, it was an all you can eat restaurant. While at the restaurant two lucky seniors received $100 scholarships. The money came from the Chinese Carnival. Scholarships are given every year. Seniors always receive them because they are leaving Belmont. They just do not pick two seniors. They selected the two seniors that contribute to the club the most and are hard working. Next year, if the club has enough money, they will go Disneyland.

# Spotlight!

Cinema Club is a well distinguished organization because of its unique interests and devoted members. According to the club president, Elsy Vargas, it provides an opporutnity for Belmont's buffs to meet and discuss movies from their own personal point of view. In addition, it is also a training ground for those who are interested to work behind the scenes in such endevors as directing, filming, editing, etc.

Last year, the Cinema Club had established itself as one of Belmont's most popular club. And as for the members, they are encouraging more students to participate and join to take part in supporting their school. That is why this year, with the close supervision of Ms. Jensen-Pearce, the club sponsor, and the devotion of each member, they have once more launched another successful year!

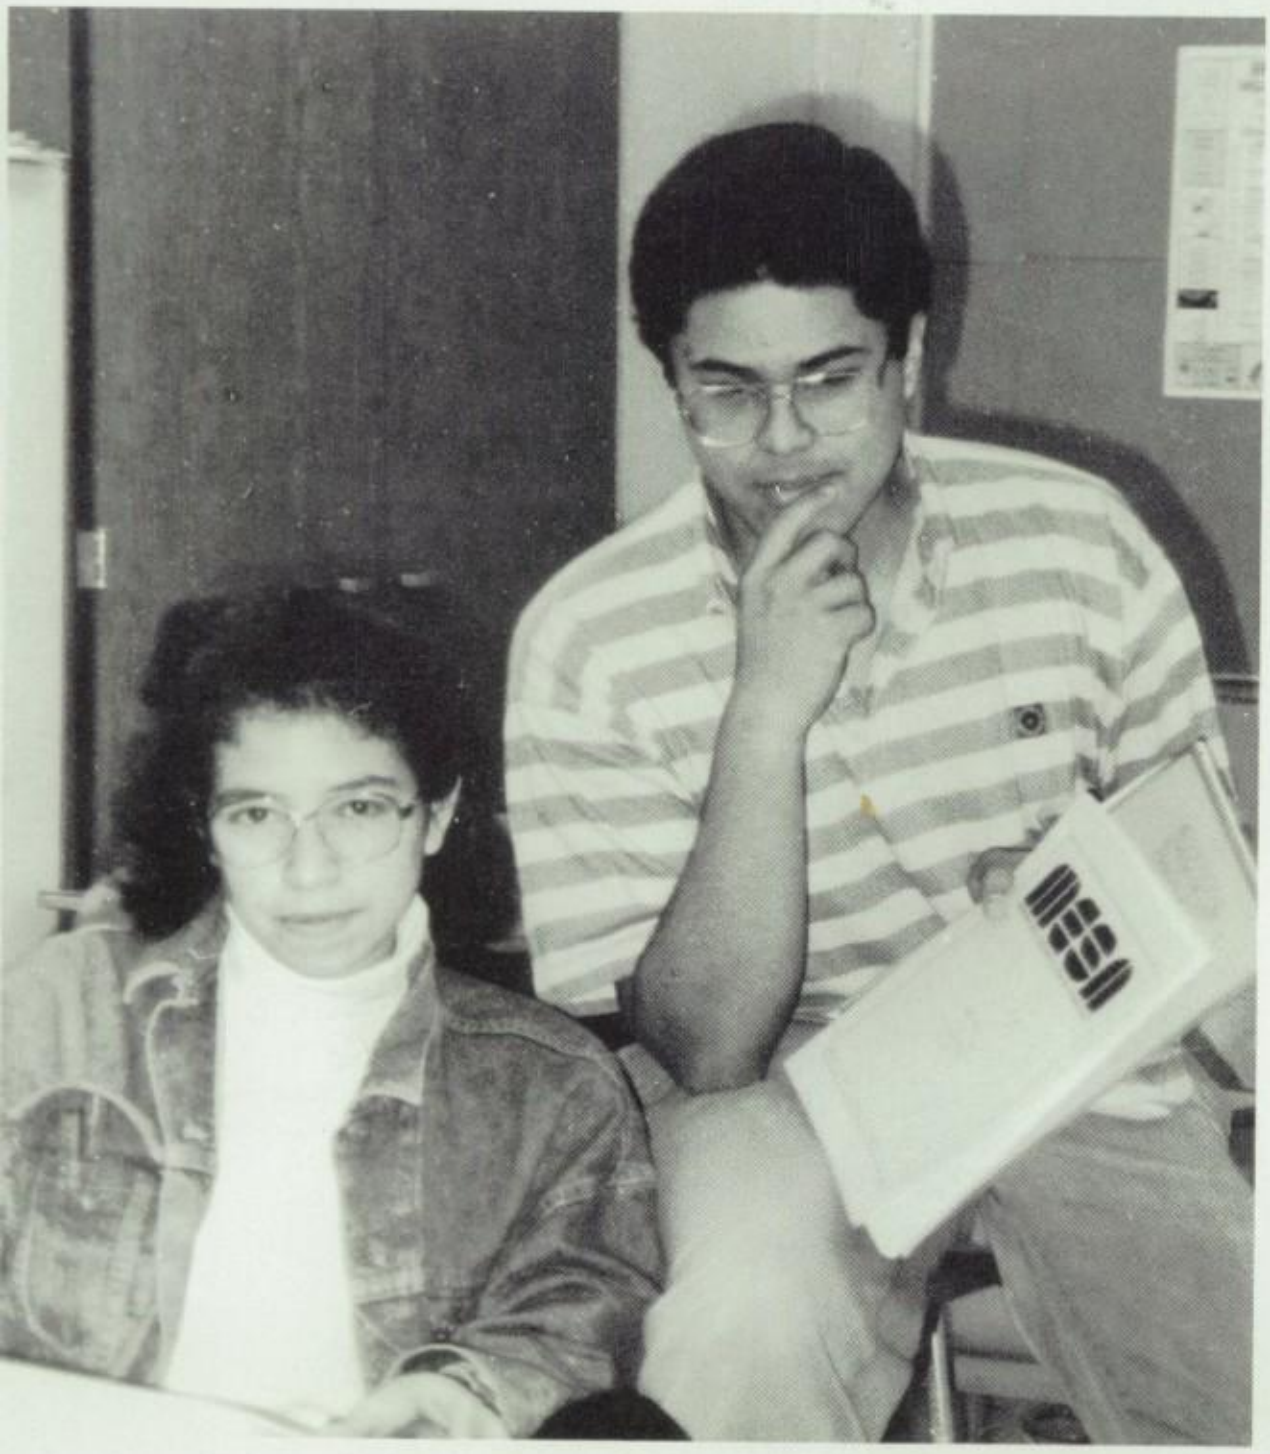
# MESA



a + b = c /E=mc, What does all of this mean? This might be the question in your mind but to MESA members it's a part of their everyday activities. Their is no doubt that these students are some of the most dedicated students that Belmont may have. The MESA Club motivates and prepares students for a higher education, specializing in academic fields such as engineering, math and science. During their meetings Mr. Porter helps them with any math or science problems that they may have in doing this he also helps them prepare for any up coming events. This year they participated in numerous field trips and other activities that included the Math Olympics held on March 26 at UC Santa Barbara.

# Cambodian Club *Help to Forget*

One one of the goals of this unique club is to help the Cambodian students who have not yet recovered from thier nightmares. They are able to talk and to share about their misgivings with their fellow Cambodian friends, who have also undergone the same experiences. Another goal is to help students to improve their english. But most importantly, the Cambodian Club helps students to be aware of their rights and opportunities. These "children of the killing fields" are the hopes to relight the torch that someday may lead the tragic stricken country of Cambodia out of its nightmare.

# *The Fun of Comics*

All you web slingers, Trekies, and all the rest of you comic freaks, the comic book club is the place for you. If you're a comic book collector, the comic book club is the place to buy or sell comic books. It's also a great place to meet people who are also collectors. One can also get the latest info on favorite characters from Capt. America to the X-Men. If you're into the artwork you can check out some of the newest titles from D.C.'s *Slash Marad* to Comico's *Robotech*.

Comic books are no longer written just for the fun of it. Some of the newest titles deal with normal day to day life. While others deal with political questions. So if you think that comics are for little children, you are wrong! Todays comics are written for a more mature audience. So if you are a collector, keep collecting.

# THESPIANS

Lights! Camera! Action! The Thespians society is a club filled with enthusiastic drama students. Members of this club do not have to have a drama class. All one needs to be a member is to have a desire to be on the stage. Sponsored by Ms. Serena Bell and Mrs. Robin Jensen-Pearce, the club has never been better. Led by Margaret Yo, the president, the Thespian society has presented outstanding productions such as the Spring play, A Thurber Carnival. In the Fall of 1987, Belmont's Thespian Society was a participant in the Drama Festival of Southern California. The club competed with other schools in categories such as Individual Serious and Two Person Dual. Although, they never made it to the finals, the Belmont Thespian Society left a lasting impression on the other schools. This club has made it through a terrific year, and it will continue for many years to come.

The Belmont Soccer Club was established in the fall semester of 1987 by sponsor Nacy Carr-Swain, Belmont's soccer coach. The idea for this club came from several returning senior soccer players such as Edgardo Rivera and Celio Garcia. The purpose of the soccer club was to instill an interest in the team for support as well as in fund-raising activities. Since the club is still very young, fund-raising has mainly come from the weekly collection of dues.

However, a future fund-raiser would be the sale of soccer club t-shirts or maybe one that says "Belmont Soccer-League Champs". Future events for the club will include a picnic and participation in the soccer team's awards banquet.

Officers for the club are elected every year during the summer months. Students from all three tracks are chosen to cover any absences by off-track officers. All students in good academic standings are eligible to join, in addition to any interested staff members.

Meetings take place twice a week Belmont (Wednesdays and Fridays) now in the girls corrective room. Some members of the club have made large, colorful banners for the soccer games at home and haye also made food to sell at the alumni game back in November.

In the future when more money has been raised, it will be used to purchase bags for the soccer players, or to help buy new away uniforms.

The club presently consists of a nice group of boys and girls active in school activities and sports-soccer, student council, cheerleading and drill team. The club recently participated in a Christmas present exchange.

# KNIGHTS & LADYES

Knights and Ladyes is an organization which consists of some of the most intellectual students at Belmont. In order to be in the club, one must be a senior, enrolled in A.P. or honors classes, and have a good grade point average.

The sponsor is Mr. Husing and the president is Luis Lopez and Conny Chan. Knights and Ladyes is involved in many school activities including nacho sales, participation in the Chinese Carnival, and joining the Buddy System. The Buddy System allows a club member become "buddy" with another student who is usually new to Belmont or is a ninth grader.

The Knights and Ladyes Club is an honors club with members who are usually college bound. This year the club has reached its peak in activities in which members are encouraged to have fun while they are participating.

The members of this club work hard to help incoming Sentinels, as well as ESL students, become acquainted with and involved in school activities. They are always ready and willing to help out in anyway they can, whether it is around the school or the community.

Club president, William Rivas, works closely with I.S.O.'s faithful sponsor of 16 years, Ms. Eloise Caldwell, to plan recreational activities for the Belmont Student Body and to participate in school spirit activities. Though they are always involved in one project or another, they are never too busy to make new friends.

# Octagon Club

The Belmont Octagon Club is a service organization form both our community and our school. Sponsored by the Japanese-American Optimist Club of Los Angeles, the Belmont Octagon Club follows many of the rules of its parent club.

Although, the main core of the club is an C-track, there are members from tracks "A" and "B". The club ranges from grades 9 to 12, having representatives for each grade. Felecia Corralez, the president works together with the club members planning club activities.

The Club has shown its hard work through activities such as working in the Chinese Carnival, donating trees to Belmont, helping an organization called The Tree People plant young trees in the surrounding mountains, and much much more. However, the most unforgetable service the club has done for our school is donating signs to Tritt Auditorium and Montgomery Field.

This is the first official year for the club and already it has done more than expected. If this club does as well in the years to come, as it does now, it will definately be one of the most active clubs at school.

# PRE-MED CLUB

"Pre-med is an organization that concerns itself primarily with the career orientation of the medical field", says Eric Hu, president of Pre-med club. In addition, they do things that are beneficial to the society as a whole because their main function is to deal with the service they can offer to the community as well as charitable activities. They meet weekly during nutrition to discuss issues brought up by the members and their sponsor, Mr. Wilkerson. The club's vitality is legend, that is why when it comes to voluntary tasks you can be sure that all of the members show up. For club members, it is a great priviledge to be a part of this prestigious organization because of the proud tradition of service the Pre-med holds. Therefore, Pre-med is not only a well disciplined club but also a group which offer justified interest about science in different views. The California Scholarship Federation is a statewide honor society. Members consist of the top 105 of the student body. Outstanding members of CSF may be awarded scholarships by certain Universities and colleges.

Besides being an honor society, CSF is a service organization. The members work together to contribute to the school. CSF has participated in such activities as Campus Beautification, club sales, and Parents conference night. This year CSF members from all over the state will come together at Disneyland for the CSF private party. At the end of the year a banquet will be held to award outstanding CSF members. To be part of CSF is not only an honor but also a privilege for those who can qualify.

# Pan-American Club

Pan-American Club promotes appreciation for the Hispanic American culture. The purpose of this organization is to promote school service and spirit, and help new students become acquainted with school procedures and activities. Also, members of the Pan-Am Club help communities and plan recreational activities for students at Belmont.

Some of the activities that the club participates in are club sales, field trips, parties with other clubs, and school clean-ups. We also celebrate our member's birthdays. Besides all the fun we have, we try to get guest speakers, too. Aside from all these activities, there is much more that we do here, in the Pan-Am Club.

The purpose of the Vietnamese Club is to promote the understanding of Vietnamese culture and customs. Each year, club members and officers participate in a "Chinese New Year Concert". One of our events is to get together with Vietnamese clubs from different schools and put on a concert for people to watch. The concert includes dancing, singing and acting. Besides the annual concert, the club provides services to the school in general; such services include faculty sales, providing translators at parent conferences' and much, much more. Once in a while, our members get together and go on trips, picnics and holiday parties.

# The Filipino Club

Sentinels, let me tell you what the Filipino Club is all about. The Filipino Club is a very well organized club from many different countries interested in serving the school and knowing the many cultures the Philippine Islands have, such as the primitive culture, Indo-Filipino, Asian- Filipino, mestizaje filipino and the Castellian-filipino culture.

Last year, in June 1987, The Filipino Club presented a show honoring the independence day of the Philippines and the triumph of People's Power Revolution. The show was made with the help of Mrs. Dichupa, Mrs. De La Cruz, founder of the club, and LACC's, Amihan Filipino Club which presented a dance number called, "pandango sa ilaw" along with the members of Belmont's Filipino Club. The Filipino Club is here to stay forever to let the students know about the heritage of the Philippine country as well as to be a service for the school. "Mabuhay Belmont!"

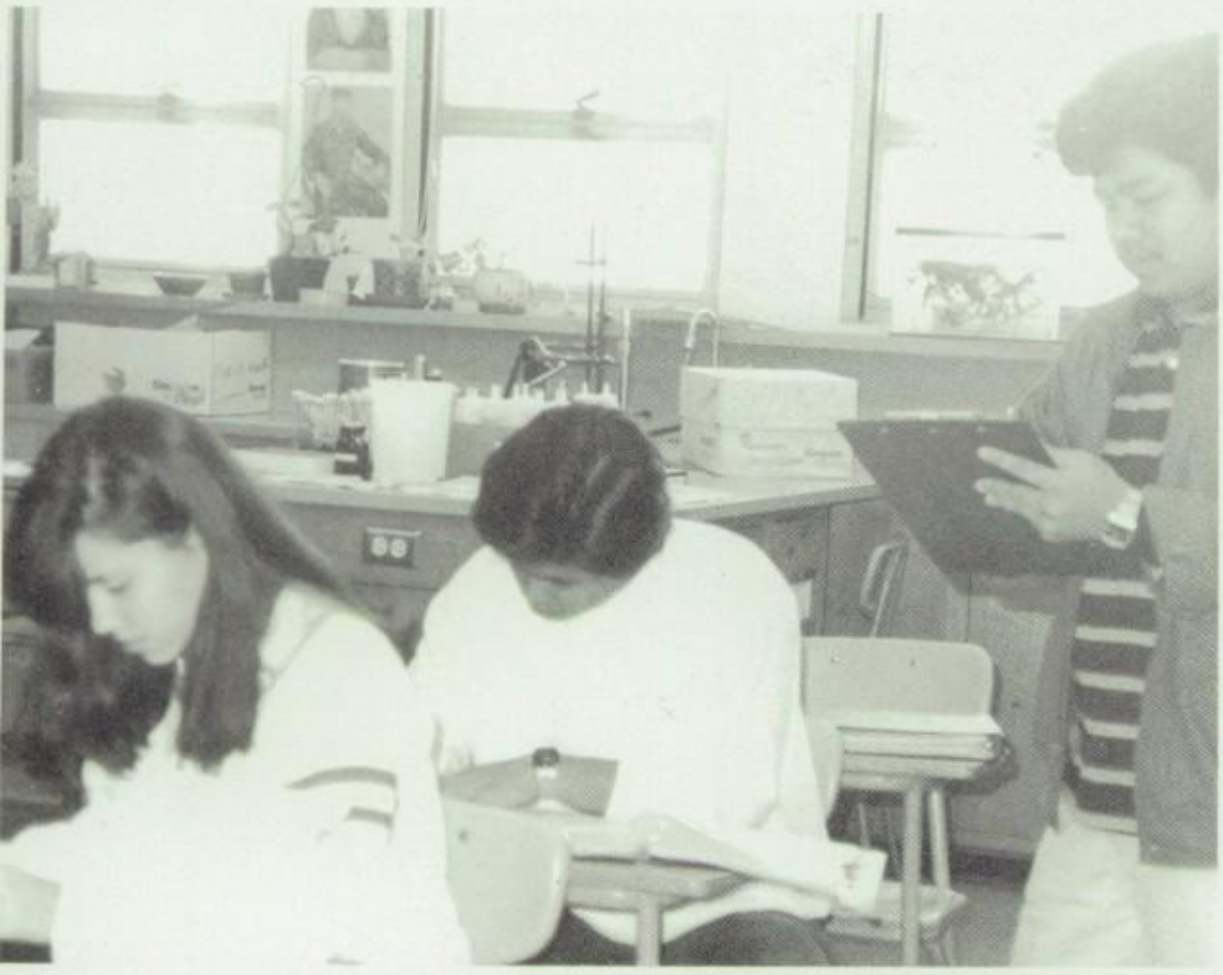
# Science Fun



No more, "I need a glass of water", now it's, "I need a glass of H20". Yes, members of the Belmont Science Club are probably going to be the future famed scientists of the world. Never before have bright students gathered to discuss science; however, whith the help of Mrs. Stewart, an A-Track Biology teacher, it has come true. Members of this club deal with topics of science from every view point. They talk about cells, atoms, euglenas-everyday simply topics. This club does not just stay in school for their activities, but they also go to different exciting places, to have fun, of course. For example, to science fairs, hiking trips, and more.

# The Korean Club

The Korean Club is a group dedicated to promote the understanding and the appreciation for the Korean culture. The club also offers support services for Korean students, many of whom are recent to the United States. Sponsored by Mr. Koo, and Mr. Myung, the club consists of 30 members. Lee Dong Hyung, president, and Choi Yoon, vice president, work hard planning for club activities. The club has picnucs and is active in sports. The Korean Club is an information organization about Koreans and Korea.

# Council of Club Presidents

The Council of Club Presidents is an organization which is combined of the club presidents who represent the Belmont High School Clubs. They usually meet every Friday during nutrition.

During these meeting, they discuss the condition of their club, the activities hat will be carried out and bring about new ideas concerning their clubs. They lso work together by participating in huge and exciting events like the Chinese Carnival. They also challenge themselves in sports such as volleyball nd basketball.

Without the leadership of these determined club members, Belmont would e a boring place to spend the greatest memories of your life.

## STAFF '88

People oftentimes do not realize the hard work that is put into a yearbook. People rarely take the time to think of how yearbooks are put together. People do not realize how much time and effort is needed to create a yearbook. The only people who would really know would be the actual yearbook staff.

Many valuable hours were spent on this year's yearbook. Ideas and plans for each section of the yearbook were time-consuming and often mind-boggling. Many Saturdays were spent working on the yearbook just to meet deadlines. And with everyone working together, along with Mr. Kodani things were done and completed. But all the hard work did pay off . . . .this year's yearbook seems to be the best of all the others.

## Varsity

It was one of those seasons—an untimely penalty, a fumble, an interception . . . a turnover that in the end changed the thrill of victory into the agony of defeat. It was not to say that the varsity team did not hold its own on the field, with many returning seniors, the team had much character, or as coach Levy would put it, "heart".

Exceptional this year was "The Line". The offensive and defensive lineman (which was actually one and the same)
was excellent. No one league team dominated in any of the games this year, it was that close. Standouts include the fighting spirit of Edward Barraza and tightend John Cortez, who was always good for the necessary yardage.

One high point to note would be that we did have a stand-off with Marshall this year and the result being 0-0 and Belmont still keeping "the bell"!

# THE KILLER BEES!

## Northern League Champs!

Through hard work, both inside the class room and out on the field, Belmont's 1987 'B' football season ended very successfully. It took a lot of courage to bounce back from our erratic start. In our season opener against Roosevelt, we suffered a 14-0 loss. After beating L.A. High and losing the last practice game to South Gate the team came together and decided from that point not to lose another game . . . we never did!

The toughest game of the season was against Eagle Rock. We were losing 7-6 with 46 seconds left on the clock. A pass was thrown to receiver Edgar Moreno which he pitched back to the tailback Taj Evans, who in turn ran 80 yards for the winning touchdown. Plays like this symbolized our whole season, we never gave up.

The BEES accomplished what we had set out to do, to be the best in the league. This feeling of victory will stay in our hearts for the rest of our lives. We, "THE BEES", would like to thank the student body for their support and for believing in us.

## VARSITY

*Dig it-Varsity player Jane Jung digs out a spike.*

Your arms are still throbbing from the last spike that you saved . . . your body is tired, hot from running around to cover the court, but the ache of anticipation of not knowing where that next ball will come down. This is volleyball. Waiting to spike it to your opponent like a ball of fire, or trying to block that ever so elusive ball of fire.

The Belmont Varsity Girls' volleyball team practiced two to three hours per day and as the saying goes, "we don't go home till the work is done". The team this year was made up of seven new players as well as the seven that returned. Although this may seem like a rebuilding year we felt like winners going all the way to the quarter-finals in what has been considered a tough league.

## Junior Varsity

The 1987 girls' JV volleyball team brought out many new faces and with them new talents. Although the bulk of the team was new, one would never have known by watching the support and ease with which the team played.

The hard efforts of the girls resulted in taking a third in League play. Exceptional players; HaLe Ngo, known for some great sets as well as some terrific serves, Cynthia Mayorga, Maria Godinez, and Maria Traigo all great players that will be returning next season.

First place will be the goal for next season which already looks not only like an exciting one but a positive one. The success of both the Varsity and JV team can be credited to the outstanding coaching of coach Barbara Fiege.

***Killer Spike!*** *- towering over the net is* ***Nick Trieu*** *as he sets off his spike.*

With the graduation of all of last year's team, the Belmont varsity volleyball team had twelve new players. Up from last year's JV a squad are co-captians Ricardo Aguilar - outside hitter/setter and Onel Garcia- setter. Other team members up from JV were Roland Ramos- back row, Nick Trieu- middle hitter, Carlos Camacho - outside/middle hitter, and Dong Lee- outside/middle hitter. Returning after a year of involuntary vacation were Sergio Mancilla- setter, and Jose Gonzalez-outside hitter.

Inexperience has been a major reason for the inconsistancy at the beginning of the '88 season for the Sentinel Spikers. Even with the inexperience of this year's squad, Coach Melin was confident that the team would pull together to be a formidable foe in the Northern League.

## Jumping Off To A Fast Start

Showing that they can "hold their own" in preseason practice games, the '88 JV volleyball team had the skills needed to not only challenge for the Northern League title but dominate it. Captain Alfredo Garcia was the sole returner from last year's squad. The team fielded several freshmen and sophomore players that gave the Sentienel fans plenty to cheer about with their exciting play.

With fouteen players on this year's team, the JV team not only had the depth to carry them through league play, but with the rotation of players playing, the team gained much experience that will prove valuable for next year.

Coach Melin has noted that the JV squad this year had the fortitude and maturity to hold together in the close games—the difference that makes the difference.

# CROSS COUNTRY

## VARSITY

Another season has passed us by . . . another season filled with emotion and struggle and a common team goal . . . to become 'champions'.

In order to achieve this common goal, we had to overcome not only the elements but team injuries. Although the course is only three miles, it can feel much longer when the cold winds are blowing and the rain never seems to stop. Throw in a few sore ankles and knee injuries and the course feels even longer. The goal still was the same, to become "champions."

Unlike football, the crowds are thin at a cross country meet. We had to support ourselves which only made our team closer and stronger. It also helps when the leaders of the team, Julian Otero, Natividad Gaona and Gabriel Garçia, are so strong in both running and character. Add an outstanding coach, Coach Waisenburger, and you have the makings of city champions. To be able to say we are not only league champs but city champs as well, will always be something, the varsity cross country team, will cherish the rest of our lives. God blessed us again this season . . . we are again 'CHAMPIONS'.

## THE UNTOUCHABLES

Top of the line performance by Belmont's Junior Varsity cross-country team resulted in their sixth consecutive city title. Although their impressive record of 7-0 in league would indicate an easy season it was anything but that. When your the city champs, every team comes in gunning to take the title away from you. It is at this time that champions must rise to the occasion and keep that winning JV spirit alive.

If league finals weren't tough enough, city finals proved to be just as tough with runners from all over the city trying to unseat the former city champs. With talented runners as Frolin Tolentino, Sergio Lopez and Oscar Perez and the superb coaching of one Coach Weisenburger, the 1987 JV team captured another city title. Through rigorous training and team unity, the JV team has put together a winning streak that has become truly "untouchable"!

## Frosh/Soph

Habits are a funny thing, their hard to break. If you're a cross country runner at Belmont you acquire the habit of winning. Like the Varsity and JV, the Frosh/Soph team have that winning attitude as well as that hard working ethic.

The F/S team started the season with their sights on taking first in league competition. After winning the number one spot in league, the team went ahead and acquired the title of City Champions.

With runners like Carlos Hernandez and Manuel Alas the future looks bright for the JV and Varsity team. The F/S team has been groomed well by Coach Weisenburger in their hard work ethic as well as team unity and support.

Another season, another cross country team, another city title . . . the Frosh/Soph team . . . city champions!

# LOOKING SOFT...BUT FAST...

## Girls' Cross Country

What made Belmont's Girls Cross-Country team great? Hard work, determination, and dedication. With almost all of last year's team returning, there was no doubt that the girls Cross-Country would have an outstanding season. The team members' individual talent combined to create a strong team.

With strong competition in the Northern League, the team took 2nd Place over all. In League Finals they placed second qualifying them for city semi-finals, where they proved their strength by placing 1st in their division.

Belmont's secret to a winning team is Coach Weisenburger. He not only cared and understood the team but also believed in each of us. The team thanks him for his support and encouragement. Special thanks go to Coach Paulsen, special friends, everyone who supported us and especially the Boys Cross-Country team who pushed and cheered the girls on throughout the season.

## A Building Year

With only one returning player this year, the boys' varsity basketball team was in what coach Arima called, "a building year".

The returning player to lead the team was the exciting Ken Johnson. With the inside play of Johnson and the sharp shooting of Eddie Anguiano, the team contested the Northern league with a record of 4 wins and 6 losses, thus finishing fourth in league.

The "bright spot" as Coach Arima puts it will be that next year there will be three returning lettermen. Not only does the future look bright with three returning players, but with a few coming up from the JV team, the next season does indeed look bright.

The Boys' Junior Varsity Basketball team experienced growing pains most of the season. Highlights of the year included wins over Garfield and Roosevelt. # UP AND COMING

It was a good year for the Belmont B Basketball Team this year. The B's were 9 and 5 overall. In Northern League play the team finished in third place with 7 wins and 5 loses. This may seem like a middle of the road year, but the development of such players as Chon Chan (All League First Team) and Barius Lingad (All League Second Team) proved to make this an important grooming season. Not only have all the players improved individually, but as a team. This was evident as the season went on with victories over Lincoln and an overtime victory against Franklin.

# Ten To The Top

The Belmont CEE Basketball Team had an outstanding season. With the final record of 10 wins and only 4 loses the C team went on to play Eagle Rock for the league championship. The Belmont team lost that hard fought game 54 to 60. The season ended in a positive note by producing First Team All League as well as Co-Most Valuable Player in League Adam Gutierrez. Gutierrez averaged 26 points per game. Making the second team All League were Claude Williams and Ramiro Tellez.

Also noted by players for such a great season was the coaching of Coach Jack Hansen most noted in league play for his innovative Hansen-Zone-Press as well as the Hansen-Pick-And-Roll.

# Girls' Basketball

## V A R S I T Y

Unlike "The Beginning," the Girls Varsity Basketball players were experienced and fortified with the fundamentals of basketball. The team consisted of nine members: Belzi Palencia, Rachelle Pagtalrinan, Manuela Morales, Liz Laj, Maria Godinez, Clara Castro, Mara Calderon, with Victoria Melara as captain, and Sheila Saiki, co-captain. They started the season slowly, losing four games out of their first five. However, this did not stop the aggressive ladies. Frustration and disappointment were the two most commonly expressed feelings when describing the Sentinel's basketball season. Next year, Miss Fiege will be returning as the team's coach. She has hopes to create a more successful season.

## JUNIOR VARSITY

With determination to work as a team, the Girls' JV basketball team vowed to dominate the Northern League. Even those who were on the bench were seen supporting the team this year with much vigor and enthusism.

Maritza Marquez summed it up best when she said, " . . . we win as a team and we lose as a team". This tteam spirit compunded with hard training proved to be the difference that made the difference in league play. Add the coaching of Coach Fiege and the support of our team managers . . . they add up to a season record of 8 wins and 2 losses. The team represented the Northern League this year by beating Marshall at the end of the season.

# TENNIS

## Girls'

Belmont started the 1987 season with a "smashing" start. The team won all three practice matches against Lincoln (5-2), Wilson (4-3), and Crenshaw (4-3).

The first round of league matches proved to be somewhat tougher and the team had a record of 2-3, with wins over Business Magnet (5-2) and Manual Arts (6-1). The girls suffered losses to LA (7-0), Dorsey (3-4) and Hollywood (2-5).

The second round of competition had both good news and bad news for Belmont. The good news was that the team as a whole improved—-the bad news was that so did the other teams. In second round play, Belmont had a 1-4 record.

The next season looks brighter for the girls' tennis team—-we will lose three senior players but if the seven undergrads return it should make a difference as far as team unity is concerned.

Belmont is at a disadvantage compared to many of the other schools that come from "tennis" areas. Many of our players have never played tennis and so the first few months are spent on instruction rather than perfecting strokes and strategy. I give the team much credit in their effort and willingness to learn.

# SOCCER

## *League Champs. . . Again!!*

Belmont's Soccer Team seems to be starting a tradition by winning the Northern League Championship for the fourth year in a row. Under the direction of first-year coach Jose Luis Fernandez, the team enjoyed four straight wins in pre-season with only one goal scored against them. There were nine returning players this season, including team captains Jose Moran and Celio Garcia. Moran was the leader in goals scored (11), followed by Edgardo Rivera (10).

During league, however, the games became tougher as Wilson, Franklin and Lincoln offered much resistance to the Sentinels. Our only loss was to Wilson when certain key players were out with injuries, and ties were with Lincoln and Wilson. The Northern League is one of the toughest for soccer with four of the five teams being very closely matched. Going into playoffs proved to be even tougher, but the team played beautifully against San Fernando, winning 2-1. Unfortunately, the team's high hopes of avenging last year's near miss for the City Championship were sadly and abruptly ended in the second playoff game against Chatsworth, losing 1-2. Belmont's usual elegant and finesse-style of play experienced the worst luck that day with so many shots barely missing the goal.

On a positive note junior Jose Moran (halfback) was voted Northern League's Most Valuable Player, and senior Edgardo Rivera (forward) was voted the League's Most Valuable Offensive Player. These two players were also the coaches' selections for the All-City Team. Luis Sandoval was voted the team's most valuable defender for his consistency.

For next season there will be at least six returning varsity players, including Moran, Serrano, Fernandez, Diaz, Gudiel, and Paiz, several junior varsity players as well as many new and highly skilled "hopefuls"! Perhaps 1989 will be our year!

Good Luck and a fond farewell to our graduating seniors: Celio Garcia, Victor Lima, Walter Lopez, Edgardo Rivera, and Luis Sandoval.

## Varsity Tennis

*What a racket-the spirit behind both the JV and Varsity tennis team is none other than our* ***Coach Johnson.***

This year, the Boys' Varsity Tennis Team seems to be a promising team. The team mainly consists of one senior and several juniors and sophomores. Aldren Edar and Kye Taė Kim are the main star players of the team. They are born naturals for the game. The reason being is that they have played tennis for several years now. Like the JV's, the Varsity is aimed to gain experience for next year's season. Coach Johnson is mainly focusing on the agressiveness of the team. The team is certainly looking to be like a very successful team. As for next year's team, Coach Johnson expects the junior varsity tennis team to change leagues. Coach Johnson has strong hopes that this year's tennis team will make a name for Belmont.

# PROMISING

## JV Tennis Team

This year's Boys' JV team can be described as a rookie team. Though the team mainly consists of new tennis players they have the motivation and enthusiasm of being determined to go all the way. There are several promising players. Herick Ayson, Boy Le, and Thai Luv are among a few. The players are expected to develop their tennis skills this season.

The team coach, Coach Johnson feels that the season is a time to prepare the new players. She expects the team to grow strong and be a competitive and experienced team. And who knows? . . . Maybe go all the way.

The plans for next year is that the team will change leagues. Many changes will be made for next year's team in hopes of bringing pride to Belmont by way of the Junior Varsity tennis team.

Pitching, players, Gus Camacho (short stop), Jose Gutierrez (catcher), and Sergio Rueda (pitcher), the Sentinels started the season successfully. This team definitely has the potential to strive higher. With the hard work and desire to succeed, the Sentinels managed to reach higher. When Gus Camacho was asked what made the team a success, he replied, "By our unity and the contribution by Coach Arima. Coach Arima makes us strive for perfection."

During the past, the JV's took Belmont to the championship and this year will be no exception. We all want to win but this team wants to do their very best. With Coach Spera's help, this team will not only do their best but they will win. "With our will we will do it", responded a JV team player.

The pitching this year by Clovis Chavarria and Carlos Contreras have been the cornerstone of the team. Added with the infield defense of Joe Avila, Howard Kim, Emilio Pacheco, and Ruben Melgoza, Belmont has the winning combination as well as a winning season.

## Girls' Varsity Softball

Last year, Girls' Varsity Softball had an 8-2 record. Coach Virginia Molinterno lead the team to various victories throughout the season. They made first place in the league. This year Coach Molinterno expects to go all the way just as they did last year. With ten returners, three of them coming from Junior Varsity, the team will be at its best.

Coach Molinterno says "the strength of the team comes from her offensive line." She also says the defensive line is improving as each game passes. Hopefully Coach Molinterno's dream of coming in first will again come true. Good Luck !

## Girls' JV Softball

*You're outta three!- Catcher* ***Haydee Pacheco*** *tags the runner out—way to go Haydee!*

Coming off the winning 1987 season, the 1988 girls' JV softball team seems to have taken up where last year's left off. Even though the team make-up is a new one with many new to the game of softball, the team has grown in both skill and knowledge of the game.

Coach John Zunino says they are stronger and better at hitting, playing outfield defense and last but not least enthusiasm. On the other hand, their weaknesses are in pitching and base running. The Coach is confident that J.V. Softball will go all the way again even though there is only one returner on the team.

# Making Waves

## Boys' Swimming

Experience is the key word in describing the boys swim team. They rely on the training of their swimmers. Varsity swimmers, Victor Quintanilla and Miguel Garcia are three year returners and Jesus Escobar is returning for his second year. Newcomer, Robert Sakaguchi is also a strong swimmer on the Varsity team. These three swimmers are three of the four swimmers who took third in the City Finals in the medley relay last year. "What we lack in the depth we make up for in experience," admits Coach Ung.

The experience of these swimmers allows them to swim well under the pressures at the meets. Their ability and concentration have also helped them to be the strong team that they are. The members of the swim team are more than willing to give their support to their fellow members on both the boys' and girls' team.

# Wet 'n Wild

## Girls' Swim Team

Belmont's girls' swim team is "looking forward to a strong showing," replied Coach Ung. They put in two hours of swimming everyday, swimming from 1000-3100 yards which amounts to 40-124 laps. "The key to the success on the swim team is the amount of time spent in the water. Long hours and hard work equals better times."

The girls' swim team relys on the expertise of four year returner, Maria Christina Rivera, three year returner, Cynthia Martinez and newcomer Ruth Castillo, whose quickness in the freestyle has qualified her for varsity. Their individual effort combines to make Belmont's swim team one of strength.

## Making Their Move To Take League

With only a handful of returning gymnasts, the girls' gymnastic team, led by Coach Tomono and Coach Carr, looked stronger than they had been in the past. With all-arounders Anh Ly and Teri Aguilar to lead the team and four year veteran Monica Morales the girls looked strong in all events.

The league this year is smaller with the absence of Marshall, leaving only Wilson, Franklin, and Roosevelt. This would mean a double round of competition for the girls.

When Coach Tomono was asked what was the team's strongest event, she replied, " . . . the bars this year is our strongest event, but "The beam" ususally will determine who wins."

# Keeping Track Of It

## Boys' Varsity Track

The Boys' Varsity Track Team has the reputation of being the best, and this year is no exception. With their hard work, pride and determination they will always excel.

The Varsity Track Team also has the reputation of "demolishing" the opposition. With running stars such as Eric Hu, who is not only terrific in high jumping but is also an outstanding scholar. Other great stars include Rommel Mariscal who excels in shotput, Peter Barrientos who pole vaults with great levity, Natividad Gaona who runs with the greatest of ease and Froiland Tolentino who runs like a speeding bullet.

The Boys' Varsity Track Team is not only victorious over the competition but they are also worthwhile and fun to watch. They bring out the school spirit and pride in all of us. Thanks for the great year.

This year's Boys B Track Team is one of the best ever to represent Belmont. This team can be described in two words which are "Tough Guys." They are more than a match for any other team.

When asked if their workouts are too hard they replied, "No, nothing is too hard to keep us in top shape." Their hard work does pay off during a track meet. As a matter of fact they have remained up-to-date, undefeated.

No matter what school they go up against we know that the Boys Track Team will bring a clear victory. Always keep one word in mind when they compete "VICTORY"!

# FOOTLOOSE

## CEE TRACK

The Cee's seem to clobber their opponents everytime. Why is that? Is it their outstanding athletic abilities or their determination to excel and be victorious? It is all this and more.

There is a certain tradition at Belmont that is related to sports and the reputation of being "number one" in the Los Angeles city. The whole team has goals as well as each individual athlete. The boys' track team goes through daily workouts in order to have self-fulfillment when they cross the finish line, set a new record, or make that jump a little higher.

Some of our great Cee athletes are David Panemeno, Leandro Amar, and Carl Ting who are keeping the tradition of being part of "the best."

# SOFT STEPS

## Girls' Track

No matter how hard the competition is the Girls Track Team can overcome it. This doesn't come easy, it takes alot of hard work on the part of the girls. The training is long and hard; but its all worth it when they are victorious against their rivals.

Watching them compete is quite a thrill. They can sweep the track with any of their rivals. What drives these young ladies is the spirit to win. They always give their effort of 110%. And not only that but they do not know what the word "quit" means.

This is what Belmont is made of, winners and not losers. So keep the tradition, girls and keep on winning.

## Surviving Your Junior Year

As if eight hours of school isn't enough. You come home unfortunately remembering that you have got to put in another night of "studying 'til you drop". Whats so important about molecular weight and factoring quadratic equations anyway?!

Junior year is the most challenging and strenous year in high school. Juniors usually have four or five solids, including Chemistry, Algebra II and maybe even A.P. U.S. History. Many, if not all, Juniors dred going home to the routine, long study hours (2 or more hours most likely).

Though being a junior may seem like a lot of hard work, (which is true), surviving your junior year means you can make it to graduation. So if you're a junior on the verge of giving up . . . don't! Hang in there. Graduation's just a step away.

Arlene Castro

*When **Liz Laj** was asked how many hours she studied she smiled and said, "No comment".*

## *You Know You're A Junior When . . .*

You find yourself doing six hours of homework each night.

You don't run when you hear the tardy bell.

You can sit in class for a whole hour without throwing papers across the room.

Your teacher trusts "you" so "they" can leave the room for a minute.

Your teacher doesn't trust "you" to leave the room for a minute.

You are using at least four lockers.

"The best thing about being a junior is that you only have a year to go", says Graciela Gaitan.

# A BUSY LINE

Who is the father of our country? Many believe that George Washington was but, if it were left up to the younger generation - the teenagers - it might very well be Alexander . Graham Bell, the genius who invented the telephone.

To a teenager, the telephone is a vital part of life. Teens spend hours on the phone talking over the latest gossip, doing homework, or maybe even talking to that special someone. Without this invaluable invention, teenagers all over the world would be lost. So the next time you pick up the phone, don't forget to thank the father of "our" country . . . good 'ole Alexander Graham Bell!

# What's Your Sign?

Flirting has been with us since the beginning of time. When the first cavewomen tripped over a brontosaurus bone and caught the caveman's attention was it an accident or just a plan to hook his interest? Or how about when the caveman would flex his biceps under his animal skin . . . the more things change, the more they stay the same.

Flirting can be in the wink of an eye to the subtle, "Have we met before", or that handy "What type of transmission oil do you use?" Whatever it takes to meet that someone special . . . . . to strike up that ever-so-valuable conversation, it's a part of human nature . . . have you had a good burrito lately?

*The way I flirt, or meet a guy is I bump into him and then I look him in the eyes and say "excuuuuse me" says* ***Zully Lara.***

# I Hope No One Noticed . . .

You fall asleep in class and begin snoring . . . I hope no one noticed. You look in the mirror and there's a piece of spinach stuck on your front tooth . . . I hope no one noticed. You didn't realize but your zipper is open . . . I hope no one noticed. It's just one of those days where nothing is going right and that's when something like this always happens. Something that is so embarrassing and you only hope no one noticed!!!"

## Visits Belmont

Former Dodger Lou Johnson paid a visit to Belmont and spoke to the student body on the topic of drug abuse. The well known Dodger known for hitting the World Series winning home run in 1965 spoke about his battle against both alcohol and drugs. He later fielded questions about his life as both a baseball player and drug user. The student body not only responded warmly to what he had to say but gained much insight on how drugs can effect anyone both rich and poor.

## Zits! What to do?

Zap'em! Vaporize'em! Oxy-10'em! No matter what you do, it's very hard to hide those unwanted zits. Not only are they unattractive, but zits always seem to pop up at the wrong time - class pictures, school dances, or maybe even right before a date. Oh sure, a cover up stick may camouflage some of those zits, but you have to admit it, not all the zits will be hidden away. It's not easy trying to look inconspicuous when you have a big zit right on your forehead.

Don't you just hate it when you have a very important date and as you do some last minute touch ups you discover a big red zit on the side of your nose. You panic, of course!!! What are you going to do? Grab your cover up stick? That won't help much!!! Cancel your date? Too late to do that. All you can do is to hope that no one can see your zit.

Isn't it depressing to know that you may never be able to cover up a zit during the most important moments of your life? Yup!! Well, it's all part of growing up.

Terrance Cheung

*Cover up- Iliana Calderon's advice for that unwanted zit is liquid make-up . . . a must.*

***Simple solution-**"Oxy-10'em" says **George Acevado** . . . "it works every time!"*

## Sentinel Travel Log

Nonnezochi, the Navajo called it, the "Rainbow Bridge" or "Rainbow of Stone". The world largest natural bridge, is considered a sacred place by the Navajo Indians, for whom personified rainbows have stood as guardians of the universe. This natural wonder nestled among canyons curved by streams en route to the Colorado River.

Until recently Lake Powell bucked up Bridge Creek to the bridge itself, this was one of the most remote and inaccessible regions in the contiguous United States. Today, the bridge is accessible by boat.

With a span of 84 meters (275 feet), Rainbow Bridge gracefully arches to a height of 88 meters (290 feet), The bridge's predominant color is salmon-pink with dark stains-called Desert varnish-caused by iron oxide or hematite.

The bridge is located in Utah and is a National Monument. This was one of the many places I stopped on the way to the Grand Canyon.

# Bad Habits Are Hard to Break

*Late again-taking a few laps for being late to football practice is* ***Kevin Boyd****'s bad habit.*

***Yak Yak Yak- Kelly Madriz*** *says she'd like to control her talking . . . you were saying Kelly . . .*

Biting your nails when you're nervous, twirling your hair thoughtfully, cracking your knuckles . . . these are some common habits that people have. Habits are things we do without thinking. Though some habits, like saying "bless you" when someone sneezes are good. Most habits we have are bad habits that we'd like to break but can't.

What is a bad habit that you have? —"I always wake up late"-Tony Gonzalez. "I talk a lot"-Kelly Madriz. "I am often late to football practice and I end up having to run laps"-Kevin Boyd.

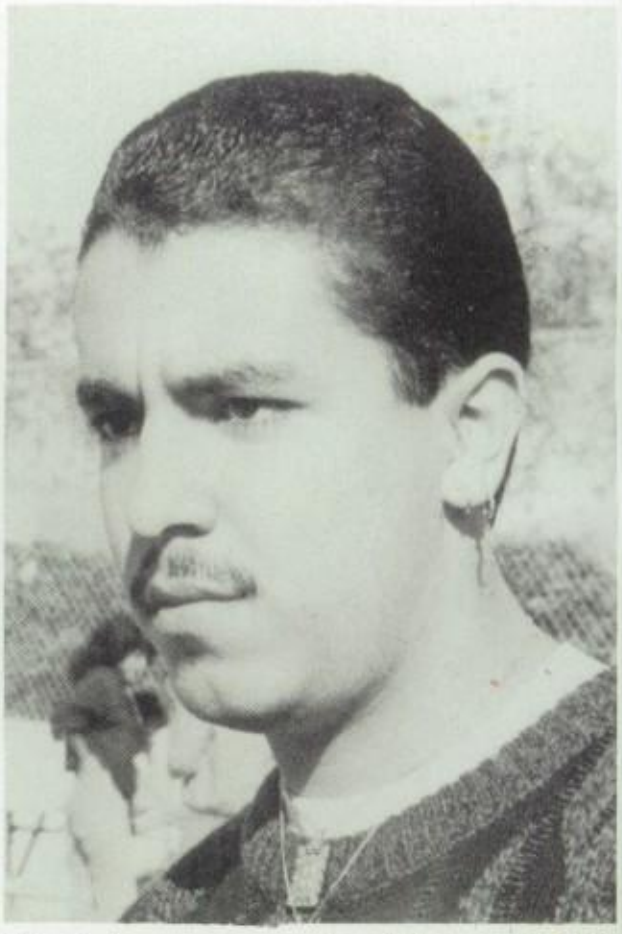
# Ring-Around-The-Girls-And-Boysies

Ben Vereen wears one, Gregory Hines wears one, Cher wears a few . . . earrings that is . . . A fashion statement? A fad?

More and more we are seeing the earring fad growing. Students and Teachers are no exception. One may see a fellow student wearing as many as four earrings on the same ear, or a male student wearing one . . . or even a male teacher wearing one.

The underlying fashion statement here seems to be that there are no set rules, —— only girls wear 'em, only wear one earring per ear. Unisex haircuts, unisex clothing, unisex fashion . . . welcome to the '80s!!!

*Four in a row-sporting four earrings is* ***Tikishan Murray.***



*'80s* ***Dude****-wearing two earrings Belmont student* ***Rick Burgos*** *struts.*

# DECISIONS, DECISIONS, DECISIONS

Besides trying to figure out what college to go to or what your major will be, deciding what to wear to school could very well rank right up there with those other big decisions.

When Ana Moreno was asked how she makes this big decision she replied, "I go with what's clean". Maricela Gutierrez says she goes with what's on top . . . while Demetria Jones had a more original solution . . . "I put it on at night . . . I sleep in it!"

I sleep in it-no wasted motion, Demetria Jones may have the right idea.

Group decision-Ana Moreno goes with what's clean while Erica Castillo emptys her closet to get that perfect match and Maricela Gutierrez reaches for what's on top.

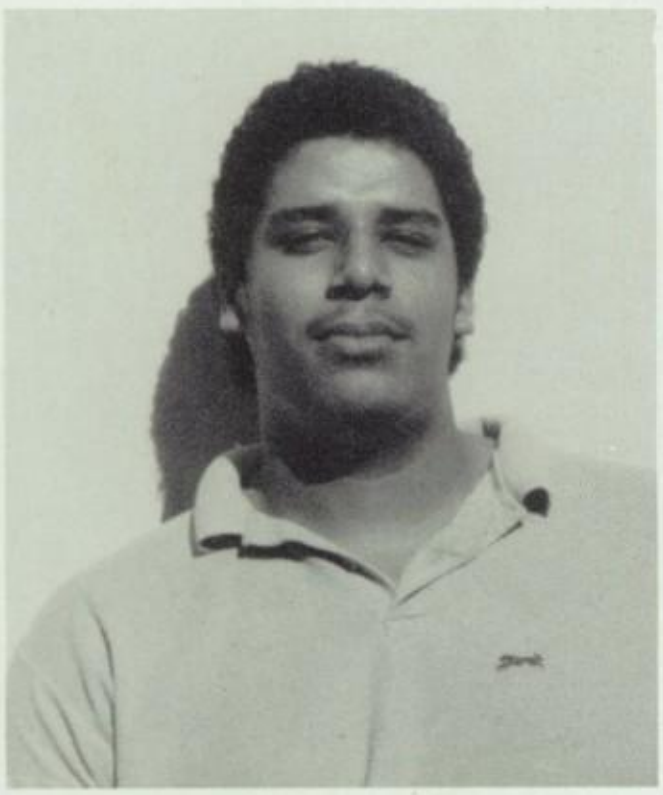
# FREEDOM



*Mug shot-no this is not Tom Smith's DMV photo . . . he says he only had to take the test once.*

*Here it is-now legit, Moises Martinez shows us what it is all about.*

It's only a piece of paper two by three inches. No one knows if you've got one or not, but the feeling of freedom that it gives you is like nothing you can compare say those students who have a driver license.

Many of the students who possess a driver license do not even have a car, to many that's not the point . . . "I feel legit now" says Moises Martinez. There's alot of red tape and waiting in long DMV lines but the hassle seem to be worth it to most.

If you're a senior it may even mean more because it's a drag taking your date to the prom on the RTD.

# Freshmen

# The Young And The Restless

They're the last to get in the hash lines. They're always carrying all of their books. They still have a hard time finding the north wing. They're called Freshmen . . . the Class of 1991.

The next time someone comes up to you and asks you to help them open their locker or find their locker . . . take a good look it may be someone a little bit shorter than you, a little more enthusiastic than you but as the saying goes . . . small bodies, but big hearts!

***The Pep Boys**-when asked what they like most about Belmont High, **Algardo Palestino** said the football games, **Ricardo Olivas** said the teachers and **Venustiano Ocampo** said recess.*

# DOUBLE

## TAKES

The first thing you notice about a person is something which catches your eye. It takes your breath away and makes you fall back. It also gives you an impression of someone. Most people notice the eyes first, especially the guys.

Now here are several of the actual quotes from Belmont students:

Flavio Mendoaz says, "If it's a girl, I stare at the way she walks."

Miguel Angel Valdruia revealed, "The first thing I notice, is if the girl is pretty or not."

"The first thing I notice is the way people are dressed, but then, there are people who are less concerned with physical beauty", Silvia Aguirre.

Jose Miguel Bosler says, "The first thing I notice about a person is their personality."

We are different people with unique attributes which attracts the attention of others.

# BELMONT AT MARCH AIR FORCE BASE

Belmont students enjoyed a fun day at March Air Force Base on August 27, 1987. The Air Force supplied the transportation along with a member of the air Froce who acted as our guide.

Approximately twenty-five students went on the field trip. It took us over an hour to get there. When we arrived, our Airman guide led us on a personal tour of the entire base.

We saw and inspected new tanker-supply airplanes that refuel other airplanes in flight. The officers were on board and answered our questions. Some of us had the opportunity to sit in the pilot's seat.

The tour also included an inspection of the dormitories. They are beautiful rooms. After all our visiting, we became very hungry and gratefully accepted the offer to have lunch.

After lunch our guide showed us some older aircraft from World Ward II and a couple of rockets used in the space program. Finally, we visited the March Air Force Base Museum and bought some gifts in the gift shop.

Thank you March Air Force Base and thank you United States Air Force for making our day so wonderful. Who knows? Perhaps, after we finish high school, some of us may join the Air Force and be stationed at March AFB

# SOUTHPAW

Have you ever been called "Leftie" or "Southpaw"? Has anyone ever teased you for using your left hand in everything you do? It may be hard for some "lefties" to adjust to this "right-handed" world but it's not as bad now as it was long before you were born.

In ancient times, people who were left-handed were shunned and thought to be witches. Not to worry, everything has changed since then.

Being a "leftie" is not a curse, in fact, some consider it to be an honor. After all only 10% of the earth's population is left-handed. Also, lefties are believed to be more creative and intelligent than the average "right-handed" person. If that isn't enough . . . only left-handed people are in their right minds!

# GETTING
## Your Head
## STRAIGHT

At the end of each school day we're usually tired or a little stressed out and we tend to keep all that pressure until the end of the week. Teachers, school work, parents and even our friends can be part of everday's tensions.

We get nervous, jumpy, angry and say things that don't make any sense as a result of this stress. When the weekend finally comes we take the opportunity to do the things we really want and need to do.

People have a variety of ways to release this stress; they exercise, take hot baths, or just sit and think of good ways to make the next week a bit easier. We should all take the time to relax and get our heads straight because we shouldn't have to carry it through the next week . . . relax . . . . . but how?

# *It Really Ticks Me Off When . . .*

Ticked off when-"people start rumors and they don't know what's going on", says Malintzin Julien.

Everyone has a strong aversion for a person's bad habits. There are things we see and hear that really makes us angry. Even though some little quirk may be nothing to someone it can be the very thing that drives us crazy.

Most of the time we don't do anything about it and just ignore the problem or rationalize it away . . . I know they'll stop snoring soon . . . I hope that noise came out of his mouth . . . he must need a lot of oxygen or why else would he be chewing with his mouth open . . .

Most of the time we will just keep these irritations to ourselves but when asked it doesn't take much to say what really ticks us off . . . . . .

# Hey Dude, Do You Have The Time?

What is a curfew? A curfew is a time in the evening that your parents tell you to be in your house by. Some think that curfews are very out of style for the 80's. When surveyed, a few students had trouble even remembering if they had one.

When asked, Karla Ayala said, "curfews are dumb". Many Belmont students such as Angela Torres admitted to not even having a curfew. Others said that having a curfew really puts a crimp into the evening because you're always watching the time in fear of missing that ever-so-soon curfew.

The time to be "in" varied from student to student, but the overwhelming consensus was that they all wished their parents would loosen up and relax the time they could slide in.

The 60's, the 70's, the 80's . . . one thing is for sure, like homework, curfews will always be around!

# Gossip In The Air

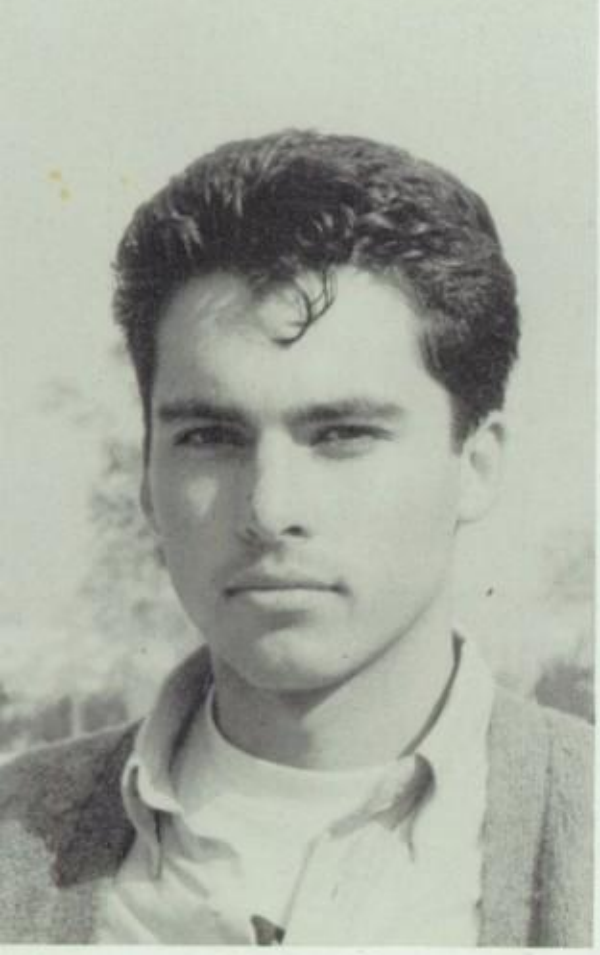
Human nature or human habit? We gossip without thinking, it comes so naturally that it makes you wonder if it is part of a human function much like breathing or sneezing. There is gossip in the air.

The bell rings and you cruise down the halls and you can hear the whispering start. Why we gossip is really not clear but what we gossip about is.

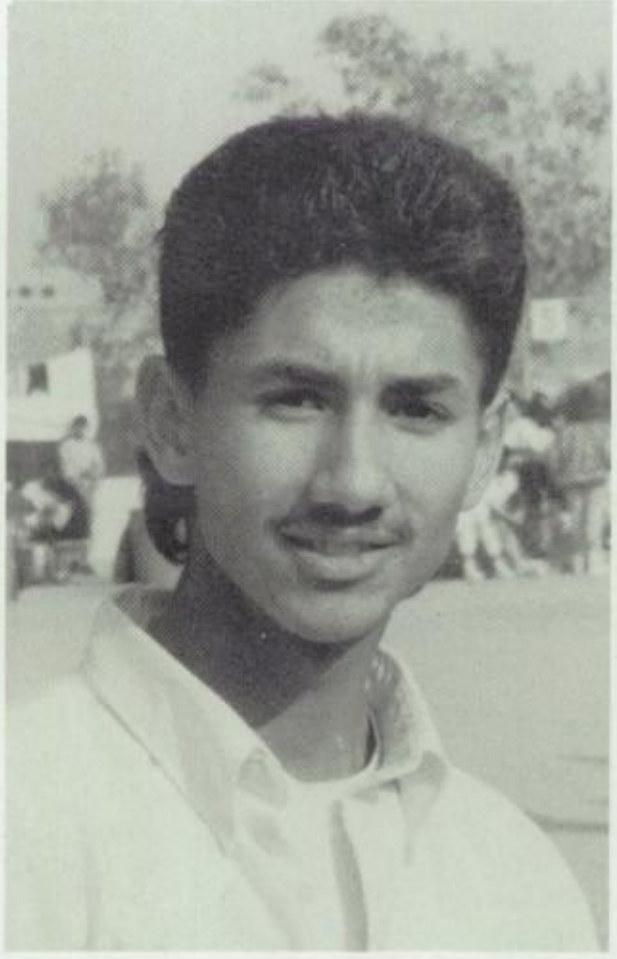
Pascual Cardenas says, "I gossip about our school's rep". While Joey Sanchez reveals his main topic is "cute girls". This brings us to another point . . . gossiping is not strictly a female activity as some might think.

It seems as if gossiping is alive and well at Belmont . . . male or female it really doesn't matter . . . by the way if you listen closely teachers do it too! Pssst . . . have you heard . . . . . .

Sandra Morales



***Male Gossip?**-Pascual Cardenas talks about school reps.*



***Yeah, but check it out**-says Joey Sanchez as he informs about cute girls.*

***Caught in the act**-two Sentinels gossiping in between classes.*

# FOUR EYES

It's hard enough to get adjusted to glasses and just when you thought you were comfortable with them, what happens? Someone calls you four eyes. You get so mad that you decide to either take them off or keep them on to show everyone that four is better than two.

"Take them off" Does that sound familiar? "People bother you because they are curious to know how you look without them" said Rosie Chavez.

How would it be if you didn't wear glasses? "Glasses make me feel awful," said Grace Avalos. But, think about it; you would be bumping into things all the time if you didn't wear them. So no matter what people might say, it's always better to be able to see than to be blind. One more advantage to feel better about glasses "You can fool people-make them think that you are innocent" said Dianne Velasquez. You also can see when you're driving down the freeway. Just think of all the people alive just because one person is wearing those glasses.

Maricela Lopez

*C'mon take it off-people are always asking to says Rosy Chavez.*

*A plus-"you can fool people to make them think you're innocent", says Diane Velasquea.*

# Words In Passing

***Passing fancy-****"I pass notes when I have nothing else to do in class" says Angela Arellano. What we want to know is this also true when you're taking Driver's Training too?*

What better way to pass the time in class (especially in Algebra) than to scribble a few words on a homework paper and fold it neatly and pass it to your best friend. It doesn't stop here for your best friend carefully opens the letter and responds in only a code you understand.

This little episode must happen every period of the day, every school day of the week. Sure the risk is heavy for you may have one of 'those' teachers that live for the bust! You know the type, he or she will swoop down on that note being passed, hold it up in the air and recite the teacher's anthem . . . "let me read this little note I've just intercepted" . . . you break out in a cold sweat.

When Belmont student Angela Arellano was asked why pass notes in class she responded, "I only pass notes when I have nothing else to do in class." The best reason was given by our own Susana Morales .. she states, "students pass notes because teachers force you to do it, if teachers would let you talk there would be no need for notes!" How can you argue with that . . . . . excuse me can you pass this to that girl in the red jacket . . . . . .

*When I left Vietnam escaping oppression and searching for freedom nine and a half years ago, carried on my back was a five-year-old girl. That girl was Khanh-Hy Nog.*

*On her way to school one Monday morning, December 1, 1987, Khanh-Hy was hit by a speeding motorist, run over by another. Both drivers heartlessly left the scene. Khanh-Hy died painfully the same morning at the Los Angeles Children's Hospital.*

*Coming from the same city, we were countrymen. Escaping on the same boat, we were boat people. Living in the same encampment in the Philippines, we were refugees. Coming to Los Angeles, we were next door neighbors. At Belmont, she was a fourteen-year-old honor student, I am a math teacher.*

*Departed life innocently at fifteen, she is gone forever. I hold an endless remembrance and love for her—-my fellow countrymen—my refugee campmate—my next door neighbor—my student. She was like my little sister.*

## *Principal's Message*

# Dear Alihians,

My first year as the principal of Belmont High School is approaching its end, and as I look back to July 1, 1987 it seems the days have flown. It was only yesterday when you began to walk along the path of your senior year, and I started to walk along with you.

I am proud and privileged to be your principal because Belmont is a great learning institution with a long tradition of excellence which I am happy to support. You Alihians, my first senior class as principal of Belmont, will always have a special place in my heart.

In the years ahead, I would like to see the already excellent academic goals of the school advanced. I want every student at Belmont to realize his highest potential. Each of our students has much to contribute to the cultural wealth of our nation but only by becoming educated can you hope to reap the full advantage of citizenship.

You, the 1988 graduates, must be the beacon that illuminates the way for those who will follow you. Therefore, march forth into the world carrying with you the appreciation for knowledge and truth that you have acquired at Belmont.

It is my hope that someday in the near future you will join the ranks of the leaders of our community.

Wishing you success in all your endeavors.

Marta Bin

# COUNSELORS

## *UNSUNG HEROES*

Counselors - The unsung heroes of our academic career. This extraordinary group of experienced people will affect us students for the rest of our lives. They introduce us to new fields of studies which we thought never existed.

Counselors undergo enormous amounts of paperwork in order to give every student the classes required for graduation. Belmont's Mr. Gomez, a new "C" track counselor, explains, "Everyday, so far, has been different, but some of the daily activities are: issuing absent slips, conducting the AIM program, making program changes, and so on."

Despite all the ordeals, do counselors enjoy their job? You bet. As our old friend Mr. Gomez would put it, "Yes, a lot. I enjoy one-on-one communication with students . . . "

So the next time you confront your counselor, remember all the hard work they put in for you . . . and smile.

# Testing, testing, one, two, three . . .

P R O F I L E

You may have seen her walking down the halls, wearing her Belmont green, and wondered to yourself "Who is she-what is her job?" For those of you who may have thought that her job was to roam the halls of Belmont . . . think again!!!

Let me introduce you to Ms. Linda Ritchie-Daza, Belmont's one and only Testing Coordinator. She has been a member of the Belmont family for ten years and, from day one, has contributed to making this school what it is today.

As Testing Coordinator, Ms. Ritchie-Daza is in charge of school-wide tests from the well known CTBS tests to the senior CAP tests. She also helps with the California Physical and Health Related Fitness test, taken by P.E. classes, and the Golden State Exam on Mathematics.

As if all of this isn't too much to handle, Ms. Ritchie-Daza also acts as Intersession Coordinator, handling programs such as Mid-City and Metro. When asked what the most rewarding thing is about her job, she replied "The most rewarding thing is when I can help a student . . . to me a student matters now . . . today and tomorrow."

Testing, testing . . . one . . . two . . .

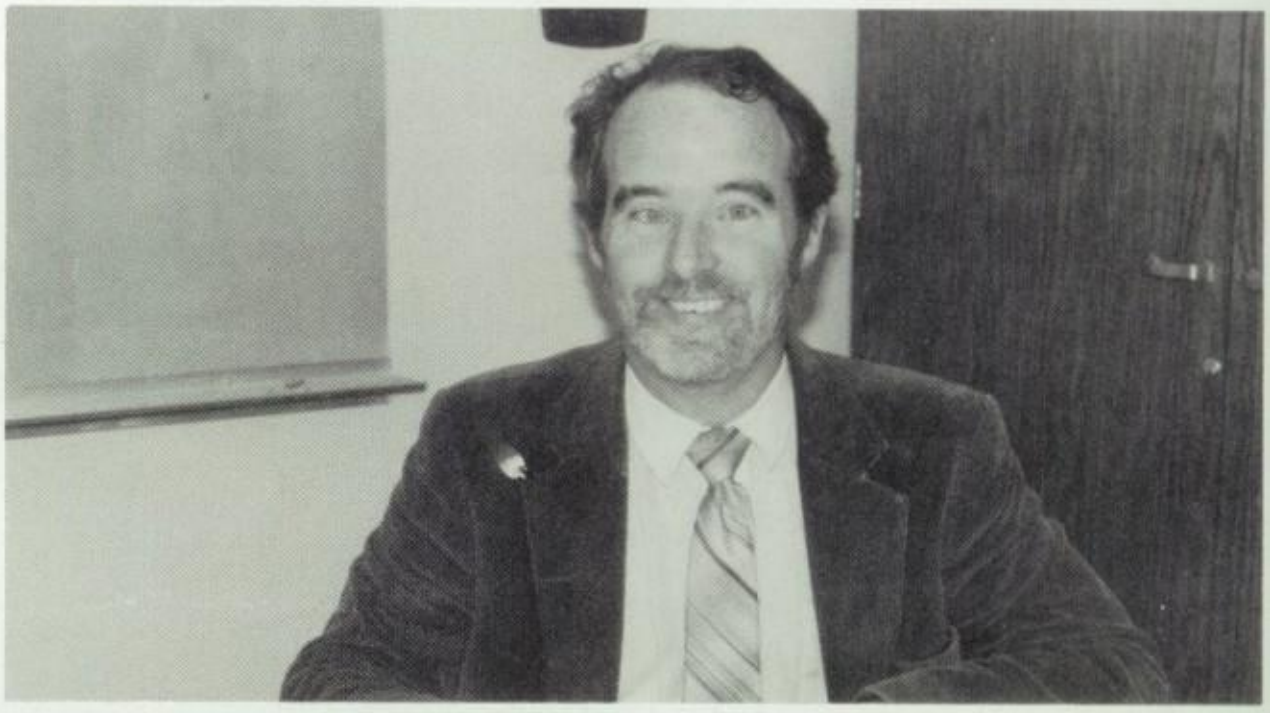
# W h a t !



Who would ever think that teachers would do wild and crazy things? No one. But in reality teachers at Belmont are just as crazy as the students at Belmont.

Mrs. Kawaye, a B-track teacher bought two lunches at the teacher's cafeteria, took it home, heated it up, and served it to guests.

C-track science teacher, Mr. Tong did a wild thing by jumping off a thirty foot cliff while on skis!

Math teacher, Mr. Porter became so impatient in waiting for his flight to Atlanta, Georgia, he decided to drive there instead!

Science teacher, Mr. Thompson forgot to put on his parking brake while parked on a hill. The car rolled down the hill, and crashed into a neighbor's fence. Mr. Thompson then towed out his car, and put back the fence before the owners ever came home.

C-track math teacher, Mr. Herrmann, desiring to meet with former president, Richard Nixon, went to Washington D.C. and never met him.

And last but not least, Mr. McNicholas, a math teacher did the craziest thing by chasing a cockroach down the hall, wrestling it to the ground, and demanding him to choke out a hall pass!

## Life In The Fast Lane

It's a tough job, but as the saying goes, "someone has to do it". It must be tough having dinner with Jackson Browne and Daryl Hannah . . . or brunch with Whoppi Goldberg . . . or a few laughs with Cheech Marin (of Cheech and Chong) . . . If you ever want to know how tough this really is just ask one of our local teachers . . . Mr. Hugo Pedroza.

Mr. Pedroza by day is one of Belmont's English and ESL teachers and by night a member of the band Sangre Machehual in which he plays guitar and woodwinds as well as singing vocals for the group. If that isn't enough he is becoming popular as a solo artist performing his own compositions.

If you don't find Mr. Pedroza in his classroom, or in the library, or in a recording studio, you should check the local gym. Mr. Pedroza is very serious about body building and competes from time to time in body building competitions . . . . . so if you see him around wave and say hello . . . but just don't offer him your Hershey's bar!!

# New Blood

Teaching, the eternal cycle——one day you're a student . . . the next day you're the teacher. To some students a teacher is just the person that stands in the front of the classroom and talks and talks. But, have you ever thought about something, they are always there when you have a question of just when you need to talk to someone.

This year we have the energy and creative efforts of one Ms. Alana Lee, also known to some as their math or science teacher. When asked what the scariest thing about teaching was she replied, "Knowing whether I am keeping their interest". She also said "Belmont is the best place to start teaching because the students make it easier."

One year down . . . twenty-nine to go . . .

# YOU ARE WHAT YOU EAT

Cup-a-noodles, fruits, and chocolates are some of the many varieties of food teachers and administrators eat during break times. Whether they eat it in the teacher's cafeteria, their office, or their classroom, their food can many times reflect what their personality is. For example, if one of the administrators ate only health foods, this might mean that that person wanted to keep fit.

This is definitely the case at B.H.S.. Madame Jacklyn Lang, a B-track French teacher, is an obsessive milk chocolate connoisseur. Madam Lang believes that she was hooked to milk chocolate when she possessed a pulse. She says that chocolates everywhere were shouting, "Mange moi! Mange Moi!" Besides from chocolate, she also yearns for cream pies of any type. As a child, her fantasy was to be an insect dive bomber who plunged into a cream pie and had to eat her way out. One can conclude that Madame Lang's eating habits are much like those of the Europeans due to the fact that during nutrition and lunch, she is in her classroom devouring apples and cheese.

Madame Lang is not the only teacher who's food reflect the eater's personality. There are other administrators and teachers who are in the same boat. For example, Mrs Marta Bin, our respected principal, eats foods which have a lot of proteins. She tries to avoid cuisines which contain oil or large amounts of salt.

Remember, you are what you eat.

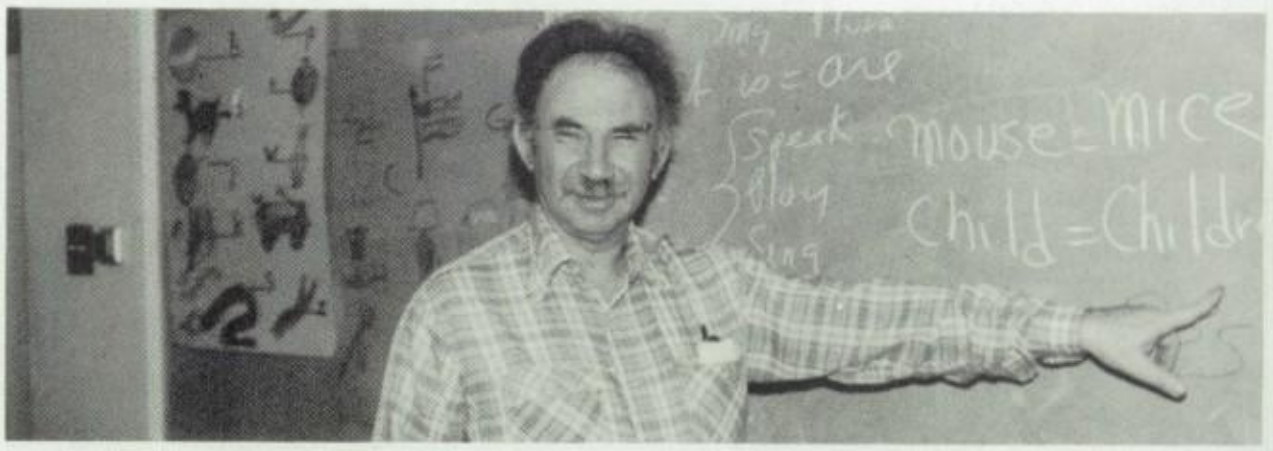
# THREE AMIGOS



*This way-always ointing us in the right direction is Mr. Katz.*

Who are the Three Amigos? Well, that's very simple to answer . . . **Mr. Smith, Mr. Katz,** and **Coach Arima,** the three educators who have taught at Belmont the longest. All three of them have been teaching since the 1950's . . . they have taught here longer than most students have been alive. Through the years, these teachers have taken their experiences and shared them with the youths of today.

Mr. Smith, a science teacher, started teaching in 1958. He was selected the "Outstanding Chemistry Teacher" in Area B, one of four areas that divided the entire district in 1968. He feels that Belmont is a sea of cultural backgrounds. By listening to students from over 55 countries, Mr. Smith feels that he has traveled to all these places. Among his former students are: Veronica Porche Ali, ex-wife of Muhammad Ali, Donald End, Physicist, Simeon Wong, who helped design the safety system of the space shuttle, and much more who have made their way to the top.

Mr. Katz, who is now teaching computer literature, started his career in the late 1950's. He is man of all subjects. His teaching experiences include: English, Social Studies, and Drama. His most memorable event was in 1963. The play "The Glass Menagerie" was produced in the auditorium. Everywhere he goes he always meets one of his former students. Mr. Katz, a very interesting teacher has shared his knowledge with students who have become successful in life.

The last of the Three Amigos is Coach Arima. He states that Belmont's faculty and student body encouraged his stay since 1956. His most memorable event in his teaching career includes teaching academic classes and coaching different sports, from basketball to baseball. Some of his former students who have "made it big" in life are Robert Lyles, a professional football player for the Houston Oilers, and Jack Hansen, who is now a P.E. teacher. In 1959, he helped the Belmont basketball team win its first championship.

All three educators have shared themselves with the student body. Each student carries a little bit of Mr. Katz, Mr. Smith and Coach Arima. Belmont has changed physically over the years but one thing still remains the same as agreed by all three . . . the students. They all feel that the student body is as friendly as they were 30 years ago.

The sun begins to set . . . we see three men riding towards the setting sun . . . one carrying a few computer disks, another with a couple of test tubes tucked in his belt and one trailing bouncing a basketball . . . oh it's the "three amigos".

## Security

Richard Hanna and Randy "Moses" Carodine-School Security

***Hanging-Randy****sits with Blanca Pereira . . . Blanca looks pretty happy.*

Randy Carodine and Richard Hanna are the police officers at Belmont. Randy has been working at B.H.S. for six years, just two years after he graduated from the academy. He wanted to be a police officer because there was always a demand for security and the pay was good. To work for the L.A.U.S.D., all he had to do was apply through the school district. He trained at the academy just like any other officer.

Randy wanted to work at Belmont because he felt that Belmont was a very nice school with well mannered students. When asked what was the weirdest incident he remembers, he giggles and says, "Once I received a Christmas card from a person I had sent to jail. Now that's weird."

Luckily, Randy was never been in a position to use his gun. However, there were a few incidents when he almost had to.

He really didn't know what to do during his first year working at Belmont. As time went on, he gained more experience and knowledge of what actions to take at different situations.

Students here do not think of Randy as a police officer, but a friend. A friend who sometimes visits classes and gives lectures to students about his experiences as a policeman.

Randy is definitely a one of a kind officer.

Teacher Assistants and Educational Aides are the working force of Belmont's Chapter One Program. To become a Teacher Assistant, the applicant must be a student enrolled in a city college or a four year institution and be taking twelve academic units. Teacher Assistants can work up to a maximum of six hours a day. Many times, a teacher Assistant's work schedule revolves around their school schedule. Teacher Assistants work in the classroom tutoring students and working with them in small groups. To become an Educational Aide, an applicant does not need to be college bound. Educational Aides can work either three hours or six hours per day. They work primarliy in offices utilizing their bilingual skills, communicating with students, parents, and the community. If you are looking for an aide who is imaginative, dependable, efficient, and sensitive, just ask for a Chapter One paraprofessional.

# AUTOGRAPHS

# LONGTRIPPERS

Longtrippers have fun where ever they go. Whether it rains or whether it snows. They go to places full of festivities. Their thoughts are filled with joyest memories. New members are treated with sincerity. Weekends were spent full of laughter and shine. They've left their mark at places they left behind.

We are Longtrippers. Yes we are. We sail the oceans near and far.

I want to wish you
the best in your future
life and I hope I will
still see you, even though you
are graduating. Please take good care,
cuz I care. Always remember me
cuz I sure won't. Thank you for
a wonderful friendship. Hope we all
could go out when all of us graduate.
I really love ya
